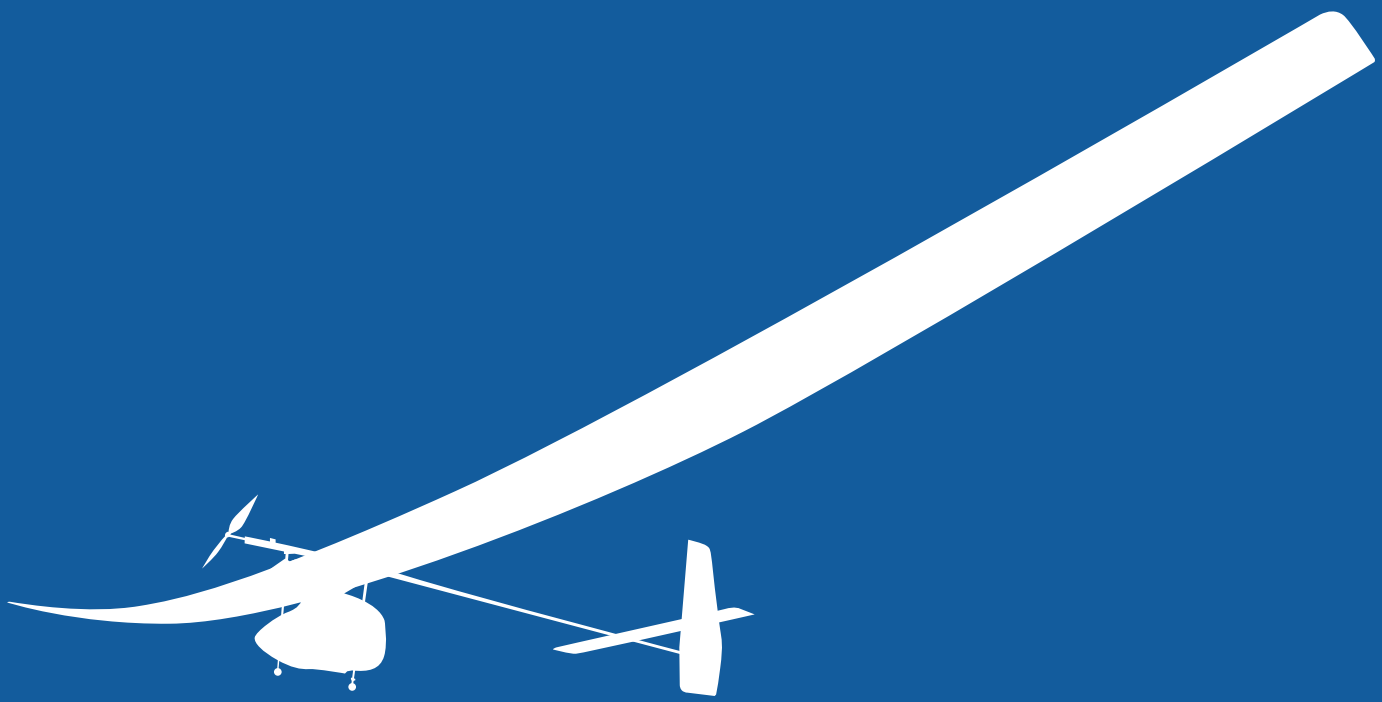
TOKYO INSTITUTE of TECHNOLOGY
130th Anniversary in 2011

TOKYO INSTITUTE OF TECHNOLOGY

Profile 2010 / 2011



TOKYO INSTITUTE OF TECHNOLOGY

TOKYO INSTITUTE OF TECHNOLOGY

Symbol Mark

The seal of Tokyo Institute of Technology was designed in 1948 by Mr. Shinji Hori, then professor at the Tokyo Fine Arts School. The white portion represents the Japanese character [工] which is the first character of “engineering” [工業], and also describes the concept of a window, which is the second character of “school” [学窓]. The black part symbolizes a swallow, and represents the Japanese character [大] which is the first character of “university” [大学]. The design was originally adopted for staff badges and has been used throughout the University ever since. In 1981, at the University’s 100th anniversary, the design was formally adopted as the seal of Tokyo Institute of Technology. On that occasion, then Assistant Professor Ario Tejima of Tokyo University of the Arts, grandson of Prof. Seiichi Tejima, kindly cooperated in refining the design.

東工大 Acronym: Tokyo Tech,TIT, Tokodai , Titech

Tokyo Institute of Technology has been shortened to the following in recent years: “Tokyo Tech”, “TIT”, “Tokodai” and “Titech”.

School Color

In 2004, Tokyo Tech resolved that its school color would be royal blue, the color that stands for advancement and evolution.

Tokyo Institute of Technology’s official extracurricular student club, Meister
Aircraft for 2010: TSUBAME 2010
Flight distance: 18,556.82 m
Winner of the human-powered aircraft distance rally category in the 33rd Japan International Birdman Rally

Contributing to the World with Science and Technology

Kenichi Iga President

Tokyo Institute of Technology (Tokodai) is a top tier university, leading the world in Science and Technology. As one of Japan's most reputable institutions of higher learning, the Institute has undertaken education and research of the highest quality since 1881. The coming 130th anniversary is a perfect reminder to refocus on our three pillars: People, Research and Contribution. Through the nurturing of creative people at the top of their scientific fields, and the promotion of cutting edge research, we always strive to contribute in meaningful ways to society.

The Institute has three undergraduate schools, six graduate schools, five leading laboratories and multiple research and education centers producing graduates who excel in conducting research that meets the demands of society and industry. Nothing gives us greater pleasure than to be the first preference when it comes to employers seeking to recruit top engineers, or students choosing a career in science and technology. Our faculties and departments are active in the most advanced fields and occupy an important position in the global academic community, thanks to their internationally recognized research.

We have initiated nine projects so far with the support of the Global Center of Excellence (G-COE) program, sponsored by the Ministry of Education, Culture, Sports, Science and Technology (MEXT), which will further enhance the functions of research and education in the university. The Institute also secured funding in 2005 as a super COE program from MEXT and established an Integrated Research Institute (IRI), which aggregates and disseminates knowledge across departments in order to create solutions for the future problems of society, from energy security to the effects of burgeoning medical costs. This project was a success and five research laboratories took up its function.

The Institute is also active through many educational programs. Seven projects were launched as part of the support program for improving graduate school education by MEXT. The Productive Leader Incubation Platform (PLIP) and Gender Equality Center began life in 2008. Emphasis on creativity as part of our educational philosophy has produced a great number of famous graduates, including Dr. Hideki Shirakawa, the 2000 Nobel Laureate in Chemistry. One key mission of the Institute is indeed to foster creativity in our students, but creativity built on a comprehensive grasp of the fundamentals of knowledge. The center for Monotsukuri (Making Things) embodies this with its unique hands-on programs that help give shape to ideas, supporting students to physically create and enjoy the sense of accomplishment that comes with building actual things.

Other noteworthy projects include the new upgrade of our supercomputer "TSUBAME," to Version 2.0, the fastest in Japan, and ranked 4th in the Top 500. This new machine was also awarded 2nd place in the Top Green 500.

We established the Global Edge Institute to train young researchers from all over the world, and expanded joint programs with overseas partner universities. The new library on Ookayama Campus and a new building in Suzukake-dai are being built to further improve collaboration. The recently opened alumni hall (Tokodai Kuramae Kaikan) is also a testament to the strength and importance of our alumni network as a channel to promote fruitful exchanges with society.

Tokyo Institute of Technology is open to the world. It is a matter of great pride that our research and educational activities have been given gradually higher ratings in international surveys over the years, for example, being ranked 60th in the QS 2010 World University Rankings, and 23rd for Engineering/Technology. We will continue to be pioneers at the frontiers of technology, ready to meet the demands of an ever-changing world.

On March 11, Japan suffered the Great East Japan Earthquake. In order to overcome the hardship, Tokyo Institute of Technology should contribute by offering our highest capacity of science and technology.

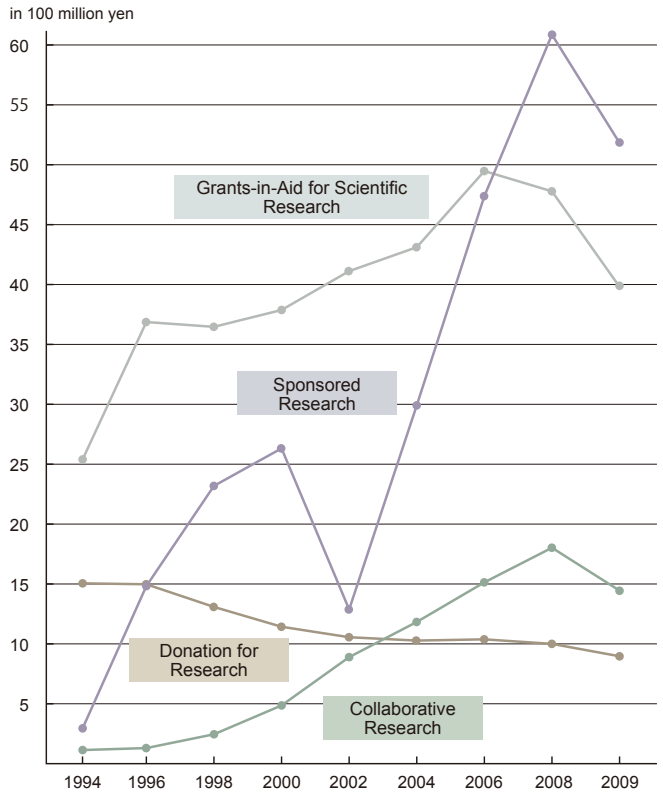
Trends of Funds



UNDERGRADUATE COURSES

School of Science (5 Departments)

(As of May 1, 2010)

http://www.sci.titech.ac.jp/

The School of Science is made up of 5 department that are the pillars of scientific education. The goal is to provide our students with the expert knowledge, rigorous logical thinking and problem-solving abilities that are needed in this highly technological era.

School of Engineering (16 Departments)

(As of May 1, 2010)

http://www.eng.titech.ac.jp/index_e.html

The school of engineering has 70% of all students and covers 16 of the 23 departments, from group 2 to 6. The education is based on teaching strong fundamentals while fostering creativity. Students form teams that must identify problems and create ingenuous solutions in order to integrate the essential knowledge with new ideas and further design and manufacture real applications. Our graduates are expected to have "strong foundations in engineering", "the ability to communicate internationally" as well as "leadership skills", these elements, along with specialized subjects taught from year one, are woven into the curriculum, and it all spirals up from entrance to graduation.

School of Bioscience and Biotechnology (2 Departments)

(As of May 1, 2010)

http://www.bio.titech.ac.jp/english/index.html

This faculty was established in 1990 to enhance education and research in the integrated field of bioscience and biotechnology. It consists of two departments: the Department of Bioscience and the Department of Biotechnology. A total of 150 students are accepted to the school every year. Generally 1st and 2nd year students study in Ookayama campus, moving to Suzukakedai campus from the 3rd year.

GRADUATE COURSES

Graduate School of Science and Engineering (20 Departments)

(As of May 1, 2010)

Graduate School of Science http://www.sci.titech.ac.jp/

The faculty and students of the Graduate School of Science devote themselves day and night to research in new fields, driven by the sheer pleasure of discovery. Our education aims to develop the ability to look at the roots of problems and to solve the issues one by one through the rigorous application of logical thinking. From the nature of prime numbers to the principles of quantum computers, the ultimate structure of the universe, new nano elements or synthetic molecules, or the mysteries of the emergence of life on earth, our internationally recognized researchers produce leading-edge results in all the fields that have long fascinated mankind.

Graduate School of Engineering http://www.eng.titech.ac.jp/index_e.html

The Graduate School of Engineering covers 15 fields, and its teaching staff and students represent about 30% of the school. While teaching master courses is the main focus, we also work on leading edge research themes. We encourage our top students to continue on to Doctoral courses, for which we have our own Research Assistant budget, and through the Asia-Oceania Top University League on Engineering (AOTULE) and other exchange agreements with top overseas institutes we are able to provide our students with a strong international outlook. Similarly, our joint programme with the universities of Osaka and Nagoya offer the teaching staff opportunities for growth.

Interdisciplinary Graduate School of Science and Engineering (11 Departments + IPER)

http://www.igs.titech.ac.jp/english/

(As of May 1, 2010)

The graduate school is composed of 11 departments, which are classified into three groups, and have no undergraduate program as it aims to be an interdisciplinary graduate school. Crossing over the three groups, the Innovative Platform for Education and Research (IPER) was established to conduct an advanced education and research in the doctoral program. The school has been pioneering new interdisciplinary fields for providing technologies required to create a sustainable society not only in Japan but also in all over the world.

Innovative and Engineered Materials

GRADUATE COURSES

Graduate School of Information Science and Engineering (3 Departments)

(As of May 1, 2010)

http://www.ise.titech.ac.jp/index.html.en

Along with the rapid increase of data creation and collection in all fields, both the scope and relevance of information technology are increasing. Beyond solving problems in natural sciences, students are also educated on how to apply information science to address societal issues. From the fundamentals of computer science and statistics to improving architectural design, software development or user interfaces, the unifying goal of each department of the Graduate School of Information Science and Engineering is to improve and harmonize the relationships between individuals, computers and society.

Research Fields

Computing in Information Science (Mathematical Computing, Software Interfaces, Mathematical and Information Sciences), Mathematical Sciences (Mathematical Analysis of Discrete Structure, Mathematical Analysis on Nonlinear Structure, Statistical Science, Operations Research), Computing Science (Software Analysis, Software Organization), Foundation of Computing Science, Foundation of Software Science

Computer Science

http://www.cs.titech.ac.jp/cs-home-e.html

Research Fields

Integrated Information Systems (Software Environments, Multi-Media Information Processing), Computer Systems (Dependable Computer Systems, Asynchronous Concurrent Systems, Advanced Archtectural Design), Software Engineering (Software Design, Computational Logic), Intelligent Systems (Knowledge Engineering, Inference Systems, Computational Linguistics, Pattern Recognition), Foundation of Computer Science, Information Network

Mechanical and Environmental Informatics

http://www.mei.titech.ac.jp/index-e.html

Research Fields

Integrated Informatics for Mechanical and Environmental Systems (Acquisition and Utilization of Information, Informatics for Environmental Control, Informatics for Policy Science, Informatics for Social Systems), Human Information in Mechanical Engineering (Human Information in Mechanical Engineering, Application of Mechanical Information), Information-Driven Systems (Decentralized/ Cooperative Control Systems, Sensing for Mechano-Informatics), Environmental Systems Design (Geographic Information Systems, Intelligent Space Design, Intelligent Infrastructure Systems), Foundations of Mechanical and Environmental Informatics, Environmental Monitoring and Modeling, Coastal Environmental Studies, Robot Informatics

Graduate School of Decision Science and Technology (4 Departments)

(As of May 1, 2010)

http://www.dst.titech.ac.jp

Rapid technological developments - from information technology to biotechnology or genetic technology - are bringing society towards a new era of industrialization. While technology has created new opportunities and potential for human beings, it has also brought ethical and moral issues to the forefront, such as our growing impact on the environment. The Graduate School of Decision Science and Technology aims to identify those problems and formulate concrete ways to solve them, by designing and implementing a more effective interface between human society on one hand, and science and technology on the other.

Human System Science

http://www.hum.titech.ac.jp/index-e.html

Research Fields

Human Resource Development (Cognitive Science, Educational System Design, Human Resource Development for Science & Technology, Educational Evaluation), Human Dynamics Design (Motor Control and Health Design, Psychosomatic Science, Discursive Practices), Educational Technology (Learning Media Technology, Advanced Learning Systems)

Value and Decision Science

http://www.valdes.titech.ac.jp/English/

Research Fields

Value and Discourse (Value Structure, Representation Function, Value Representation, Discursive Formation), Socio-Mathematical Theory (Social System, Social Measurement), Decision-Making Process (Collective Decision Making, Politico-Economy, Political Decision)

Industrial Engineering and Management

http://www.me.titech.ac.jp/index-e.html

Research Fields

Development, Production, and Distribution Engineering (Fundamentals of Technology, Development Strategy, Human- Production Interaction, Process Evaluation), Managerial and Financial Engineering (Managerial Calculation), Mathematics and Information Systems (Management Mathematical Engineering, Management Information Systems), History, Philosophy and Social Studies of Science and Technology (History and Social Studies of Technology, History and Social Studies of Science, Logic and Methodology of Science and Technology)

Social Engineering

http://www.soc.titech.ac.jp/major_En/index.html

Research Fields

National Land and Urban Planning (Urban Planning, National Land and Social System), Public System Design (Public Policy, Mechanism Design, Public Space, Historical Landscapes, Global Environmental Policy), Social Engineering Basic Theory (Decision Theory, Applied Economics, Social System)

Graduate School of Innovation Management (2 Departments)

(As of May 1, 2010)

http://www.mot.titech.ac.jp/english/

Our mission is to educate practical leaders who can manage the innovation cycles, from leading edge technology development, to intellectual property management and business creation. We also work to produce innovative researchers in the field of technology management and innovation. Faculty members are developing new theories for the management of technology, and are studying at the frontiers of their fields in technology management strategy, intellectual property management, financial engineering, and service innovation.

Management of Technology**

http://www.mot.titech.ac.jp/english/e-index.html

Research Fields

MOT Strategy, Intellectual Property Management, Finance Engineering, Service Innovation, Leading-Edge Science & Technology*

Innovation***

http://www.mot.titech.ac.jp/english/e-index.html

Research Fields

MOT Strategy, Intellectual Property Management, Finance Engineering, Service Innovation

Note: 1.Research fields marked with * are conducted in alliance with collaborative professors and their research groups from other departments or schools on campus.
2.Department marked with ** offers Professional Master's Course.
3.Department marked with *** offers Doctoral Course.

INSTITUTE, LABORATORIES, AND CENTERS

Integrated Research Institute

(As of May 1, 2010)

http://www.iri.titech.ac.jp/english/index.html

New Integrated Research Institute (IRI) has started in April 2010 for integrated management of diversified research organizations at Tokyo Institute of Technology. IRI consists of research organizations of Chemical Resources Laboratory, Precision and Intelligence Laboratory, Materials and Structures Laboratory, Research Laboratory for Nuclear Reactors, Imaging Science and Engineering Laboratory, Frontier Research Center and Solutions Research Laboratory. Executive Vice President for Research is appointed to the Director-General of the IRI. IRI Board, consisting of IRI D-G and Directors of research organizations, sets basic policy for IRI operation and laboratories are managed accordingly. Frontier Research Center and Solutions Research Laboratory serve as platforms for organized collaborative research projects.
New IRI succeeds and further develops achievements attained by former IRI (FY2005-2009) supported by Program to Encourage Strategic Research Centers of MEXT's Coordination Fund for Promoting Science and Technology and acts to mobilize university wide research strength and power in close collaboration with diversified science base at Tokyo Institute of Technology.

Chemical Resources Laboratory

http://www.res.titech.ac.jp/~documents/english/index.html

The main mission of the Chemical Resources Laboratory is to explore both the fundamental science as well as the practical applications of the chemical utilization of natural resources. The Laboratory consists of various divisions covering a wide range of chemistry fields (organic chemistry, inorganic chemistry, physical chemistry, biochemistry, catalysis chemistry, polymer chemistry and chemical engineering). We focus on how to effectively use and recycle the limited natural resources of the earth without polluting our environment.

Research Fields

Inorganic Resources, Molecular Materials Design, Organic Resources, Bio-Resources, Catalytic Chemistry, Polymer Chemistry, Synthetic Organic Chemistry, Chemical Spectroscopy, Chemical System Synthesis, Process Systems Engineering, Chemistry for Inorganic Materials, Integrated Molecular Engineering, Smart Material, Materials for Energy Conversion [Toppan Printing]* Collaborative Research Organization**

Resources Recycling Process Laboratory

Basic and applied research on effective exploitation of resource on the earth. Research on utilization of photosynthetic microorganisms

Precision and Intelligence Laboratory (P&I Lab.)

http://www.pi.titech.ac.jp/index-e.html

The P&I Lab seeks to innovate through the synthesis of precision engineering and information science. It was founded in 1954 by combining the Research Laboratories of Precision Machinery and the Research Laboratory of Electrical Science. It is an interdisciplinary research organization with faculty members in information science, electronics, machinery and materials, focused on contributing to the progress of society by exploring synergies between existing fields and pioneering new ones.

Research Fields

Advanced Information Processing (Intelligent Information Processing, Information Processing and Recognition, Human Interface), Advanced Microdevices (Electron Devices, Optical Devices, Applied Acoustic Devices), Precision Machine Devices (Ultrafine Machining, Precision Machine Elements, Integrated Mechanisms), Advanced Mechanical Systems (System Control, Dynamic Systems, Intelligent Systems), Advanced Materials (Materials Design, Mechanics and Engineering Design, Advanced Materials Evaluation), Intellectual Property Utilization System**, Opto-Electronics Research**

Photonics Integration System Research Center

http://vcsel-www.pi.titech.ac.jp/index-e.html

Basic Research on Devices and Systems Toward Ultrahigh Speed Lightwave Communications and Ultraparallels Opto-Electronics

Secure Device Research Center

Interdisciplinary research and creation for secure devices are studied to develop the systems supporting the safety and security of the society.

Materials and Structures Laboratory

http://www.msl.titech.ac.jp/eng/index-e.html

The Materials and Structures Laboratory (MSL) is a unique nationwide collaborative research laboratory established in 1996. It is open to researchers from outside Tokyo Tech who wish to engage in multilateral collaboration and pursue fundamental and applied research on advanced inorganic materials and architectural structures.

Research Fields

Novel Functional Ceramics (Super Functional Thin Films, Oxide Nano-Technology, Quantum Functional Materials, Combinatorial Materials Science and Technology, Sugar Catalyst), Basic Researches (Thermal Analysis, Crystal Structure Analysis, Electronic Analysis, Superstructure Analysis, Materials Dynamics, Materials for Ultimate Environment), Structural Engineering for Buildings (Materials for Disaster Prevention, Structural Design, Materials for Buildings), Chemical Design**, Numerical Simulation of Impact Phenomena**, Seismic Isolation**

Secure Materials Research Center

http://www.msl.titech.ac.jp/~secure/index.html

We carry out research and development of safe and secure materials and fundamental technologies.Innovative material developments stand on the viewpoint of abundant are also the important topics.

Research Loboratory for Nuclear Reactors

http://www.nr.titech.ac.jp/WelcomeE.html

Founded in 1956, the Research Laboratory for Nuclear Reactors (RLNR) researches the scientific principles and application of nuclear engineering. Although relatively small in scale, the laboratory continues to achieve outstanding research results in nuclear energy and radiation utilization. It plays an important role in both research and the development of human resources in related fields.

Research Fields

Energy Engineering (High Density Energy Generation, High-Temperature Thermal-Energy, Energy Conversion, Thermo-Hydrodynamics of Functional Fluids, Environmental Energy Engineering**)
Mass Transmutation Engineering (Particle Beam Energy, Fuel Cycle, Mass Transmutation, Mass Separation, Geological Disposal Engineering**)
System and Safety Engineering (Ultra-Rapid Energy Phenomena, Energy-System Materials, System Safety, System Design, Treatment Engineering for Nuclear Waste**)

International Nuclear Research Cooperation Center

Promotion of International nuclear research cooperation for peaceful use of nuclear energy and non-proliferation

Imaging Science and Engineering Laboratory

http://www.isl.titech.ac.jp/english/

The right information is the tasks as to how we quantify information in physical forms (photons, charges, spins, etc.) and reproduce ubiquitously to human being. Projection of physically-coded information in the human-perception parameter space gives rise to the concept of information imaging, which we pursue with research subjects that are critical for both fundamental and point of view. Activity of faculty members spread over various fields, incorporating physics, chemistry, electrical engineering, and information science.

Section of Research

●Image recording ●Image analysis ●Imaging system ●Applied imaging ●Intelligent system
● E-Government System-care Engineering by NTT-DATA Corporation

Note: Research fields marked with * are donated division. Research fields marked with ** are conducted in alliance with visiting professors and their collaborative research groups.

Solutions Research Laboratory

http://www.ssr.titech.ac.jp

Solutions Research Laboratory set up social and industrial issues that need to be implemented in the near future and work on them in cooperation widely with not only university members but also external organizations as systematic researches (solution research).

Research Centers

International Research Center of Advanced Energy Systems for Sustainability / Advanced Research Center for Social Information Science and Technology

Projects

Medical and Biotechnology / Nuclear Fuel Cycle / Green ICE Initiative / Neuro-Rehabilitation / Bio-Mass Chemical Resources / Environment / Social Brain Forum, etc.

Frontier Research Center

http://www.fcrc.titech.ac.jp/index.html

Frontier Research Center has been restructured as of April, 2010 so as to focus its function on promoting frontier researches being highly active in various fields at our institute in collaboration with other universities, research organizations, industries and the government. The center provides incentives and assistance to those who are leading such researches and also has a facility,open to public, to exhibit contents of such research activities.

INSTITUTE, LABORATORIES, AND CENTERS

RESEARCH AND SERVICE CENTERS

(As of May 1, 2010)

Health Service Center

http://www.gakumu.titech.ac.jp/gakuseisien/health/center/english/

Main Activities

Provides comprehensive health care services for students and staff, promoting physical and mental well-being of all at Tokyo Tech and maintaining environmental hygiene in the campuses.

Center for Research and Development of Educational Technology

http://www.cradle.titech.ac.jp/

Main Activities

Established in 1973, the center works to improve higher education through the research, development and application of hardware, software and methods in educational technology.

Global Scientific Information and Computing Center

http://www.gsic.titech.ac.jp/en

Main Activities

Administers the supercomputing facility, authentication and authorization system for members of Tokyo Tech faculty, staff, and students, and the campus network system, which serve as the key computational and communication resource for advanced research, education, and administration. The center also collaborates with overseas partners to promote international exchange for research and education.

Research Center for Low Temperature Physics

http://www.rcltp.titech.ac.jp/index_center_eng.htm

Main Activities

In collaboration with researchers inside and outside of the Institute, the Center conducts research on low temperature physics and other areas of science and technology. Additionally, it provides cryogen and cryogenic techniques to support research on campus.

Research Center for Educational Facilities

http://www.rcfef.gh4.titech.ac.jp/center/index.htm

Main Activities

Researches the planning, design, and management of educational, cultural, academic, and sport facilities. Aims to improve their quality, providing all user groups with larger utility, and serving life-long learning in the community.

Volcanic Fluid Research Center

http://www.ksvo.titech.ac.jp

Main Activities

Research on volcanology, and observation of Kusatsu-Shirane and other active volcanoes. The Center also provides field studies on volcanology for students.

International Student Center

http://www.ryu.titech.ac.jp/english/

Main Activities

Offers courses on Japanese language and culture, consultation services to students, and promotion and support for Japanese students to study overseas. In addition, it also conducts research and surveys in order to make its programs more effective and meaningful.

Research Center for Carbon Recycling and Energy

http://www.rccre.titech.ac.jp/index_e.html

Main Activities

Develops technology such as carbon dioxide sequestration, efficient utilization of energy, and solar hybrid fuel production, with the aim of using them practically to help protect the earth from global warming.

Quantum Nanoelectronics Research Center

http://www.pe.titech.ac.jp/qnerc/index.shtml

Main Activities

Conducts research on photonic and electronic devices, opto-electronic devices using nanotechnology, quantum effects, developments of crystal grown and processing technologies, physics in quantum effect devices, and the design of integrated systems.

Foreign Language Research and Teaching Center

http://www.flc.titech.ac.jp/index_e.html

Main Activities

Runs the foreign language courses at the univesity and conducts basic and applied rsearch on linguistic theories, while exploring new methods of teaching foreign languages. Also acts as a medium for cross-cultural development on campus.

Center for Biological Resources and Informatics

http://www.grc.bio.titech.ac.jp/english/

Main Activities

The center consists of the Department of Research, which works on information analyses of protein, genomes and RNA, and the Department of Resources. The latter is composed of Bioinformatics, Gene Research, and Radioisotope Research Divisions, which support research and education by raising lab animals and providing training for the handling of radioisotopes and accelerators.

Global Edge Institute

http://www.global-edge.titech.ac.jp/

(As of May 1, 2010)

This five year program was founded in 2006 as a tenure-track and mentoring system. Excellent young researchers from all over the world are trained in an english-language environment, with the aim of realizing their independent research and creating an outstanding international research community. These junior faculty are provided with start-up funds for the first two years before working towards the acquisition of competitive funds by the third. Yearly annual evaluation lead to the final assessment in the fifth year, which determines tenure, with either associate or full professorship.

Productive Leader Incubation Platform

(As of May 1, 2010)

Our mission is to help diversify the careers of young post-doctoral esearchers beyond academia to the broader world of industry and new ventures. The Productive Leader Incubation Platform (PLIP) aims to equip its students with real skills; the ability to see beyond their fields to the global world, to set flexible goals, to create value from research seeds, to convincingly convey their thoughts or set up effective research teams. Interactions with industry also abound, as the "Fusion Project" offers a chance for students to present their research to R&D and HR professionals, while the "On Campus Training" program invites experts to give presentations on the state of the industry or share their experiences on how to turn ideas and research into business. Finally company visits through the "Innovation Tour" give researchers hands-on experience and the chance to network with industry researchers, while the "Value Creating Internship" allows students to work for at least 3 months in one of the many participating companies.

Center for the Study of World Civilizations

http://www.cswc.jp/index_eng.php

(As of May 1, 2010)

What do we need to connect science with the happiness of people? To do so is to learn from the wisdom of our predecessors, which served as the backbone of various civilizations, and to gain deep insights into the nature of humanity. To conduct research into this field, the Center for the Study of World Civilizations was founded in 2006. The Center comprises two academies; the Academy of the Humanities and the Academy of the Arts. Through a wide range of events such as classes, lectures and seminars, the Academy of the Humanities shares with students, faculty members, staff and citizens, the formation of values and ideas which are the essence of human civilizations. The Academy of the Arts aims to promote sensitivity and imagination that can foster growth of civilizations through a wide range of creative activities. The Center has a mission of which looks far ahead to the future, setting the direction that modern civilizations should take, and making proposals both within the University and to the World at large.

Center for Liberal Arts

(As of January 7, 2011)

The Center for Liberal Arts was established with the view of further improvement in humanities curricula for common undergraduate subjects and the promotion of liberal arts. In recruiting faculty members, Tokyo Tech broadly employs academics with intelligence of the time, whose lectures and seminars can deeply impress students.

Technical Department

(As of May 1, 2010)

With the increasing sophistication in research education, supporting research at Tokyo Tech is also becoming more sophisticated and specialized. On this basis, the Technical Department consolidates Technical Staff at the University and fosters and secures high ability staff to provide effective professional service in technological areas. The Department is comprised of nine technical centers, and contributes to the development of Tokyo Tech.

Energy Conservation Promotion Office

(As of October 1, 2010)

The objective of the office is to raise awareness about energy saving, and for faculty, staff and students to practice energy conservation together. The Energy conservation Promotion Office plans and implements a set of measures for energy conservation, and engages in communication, coordination and information collection to maximize energy saving at Tokyo Tech.

Career Advancement Professional School

(As of May 1, 2010)

In order to proactively explore the connection with society and to enforce the function of policy recommendation based on science and technology, the Career Advancement Professional School aims to develop original continued education from the viewpoint of enhancing contributions to and cooperation with the community,. It provides continuing education programs in the field of science and technology not only to pursue high technology in which Tokyo Tech has always excelled, but also to broaden peoples' knowledge, and cater for the industrial circle's needs for advanced techniques.

Gender Equality Center

(As of May 1, 2010)

A pressing concern in worldwide science and technology is the gender imbalance that exists in education and research. The Gender Equality Center at Tokyo Tech works to support university members to create an environment in which male and female students and staff can express their full potential in an environment of mutual respect. Actions are implemented based on Tokyo Tech's policy to promote gender equality. These include a support program of baby sitter dispatch for all teachers, staffs and students, the hiring of assistants post-birth to help with research and teaching, and the support and advisory service for women. The Center also organizes various events encouraging girls to step into studies and to encourage young female researchers to keep studying in science and technology. Those efforts will bring well-balanced communities in science and technology in the meaning of gender equalitey in the future.

General Headquarters for 130th Anniversary Project

(As of May 1, 2010)

This General Headquarters plans and lays out the framework for the implementation of events to commemorate Tokyo Tech's 130th anniversary. It also pursues coordination with a wide range of programs and organizations, and cooperation with the community. The General Headquarters for the 130th Anniversary Project has a sub-organization, the Tokyo Tech fund organization (東工大基金機構), which is comprised of two organizations, a fund-raising headquarters (東工大基金募金本部) and an acting committee (東工大基金運営委員会). The fund raising headquarters raises money for the Tokyo Tech fund with the cooperation of a support association (東工大基金支援会). The acting committee makes decisions on the use of the fund in an appropriate and transparent manner.

Logo

The lustrous sphere of the logo represents engineering, mechanical parts, smoothness and cleanliness, and symbolizes a highly sophisticated organization.

Catch Copy

The catch copy of creating the future with science and technology, is our strong message that, with this view on future, who moves the world is Tokyo Institute of Technology.

東京工業大学
130
TOKYO INSTITUTE OF TECHNOLOGY
科学と技術で未来を創造する

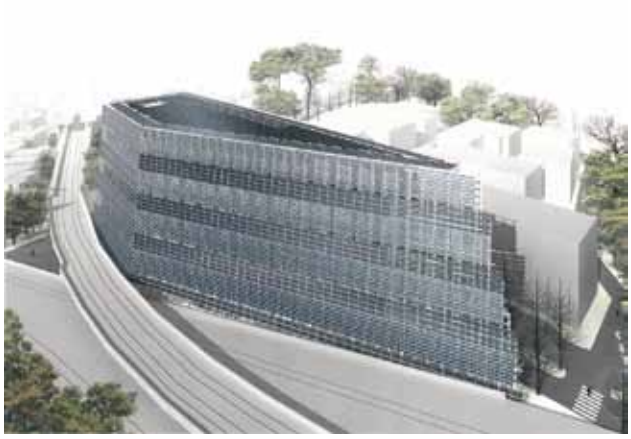
INSTITUTE, LABORATORIES, AND CENTERS

University-Industry Cooperation Research Laboratory (provisional name)

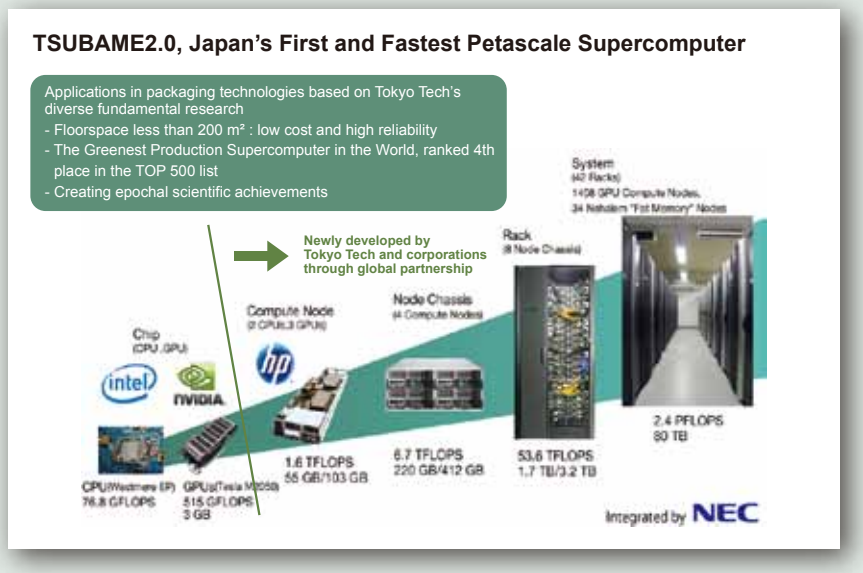
With a view to vitalize university-industry cooperation, a new building is planned to be constructed at Suzukakedai Campus in order to provide facilities for university-industry cooperative research.

Energy and Environment Innovation Building (provisional name)

This building is equipped with high efficiency photovoltaic generation panels and fuel cell devices. In addition, super-insulating materials significantly reduce CO_2 emissions comparing to other laboratory buildings. Research and education related to a wide range of energy and environment issues will take place here, and achievements will be widely promulgated as Tokyo Tech's contribution to building a low carbon society.



TSUBAME 1.0 evolves into TSUBAME 2.0



160 teraflops (TSUBAME1.2)
→
2,400 teraflops (TSUBAME2.0)

- 17,664 CPUs +4,224 GPUs
- Memory Total: 80TB
- 7PB HDD
- 81 racks
- 335 m² floor area
- Maximum power consumption: 1.4 MW
- Weight: approximately 72 tons

Atmospheric model calculation example

In November 2010, TSUBAME2.0 was ranked 4th in the TOP 500 list and named as the Greenest Production Supercomputer in the World

Inter-departmental Organization for Informatics

Promotes education based on the solutions to advanced and varied research challenges in informatics through cooperation among faculties from a variety of departments

Informatics related organizations at Tokyo Institute of Technology

Graduate School of Science and Engineering
Communications and Integrated Systems

Interdisciplinary School of Science and Engineering
Computational Intelligence and Systems Science
Information Processing

Graduate School of Information Science and Engineering

Activities

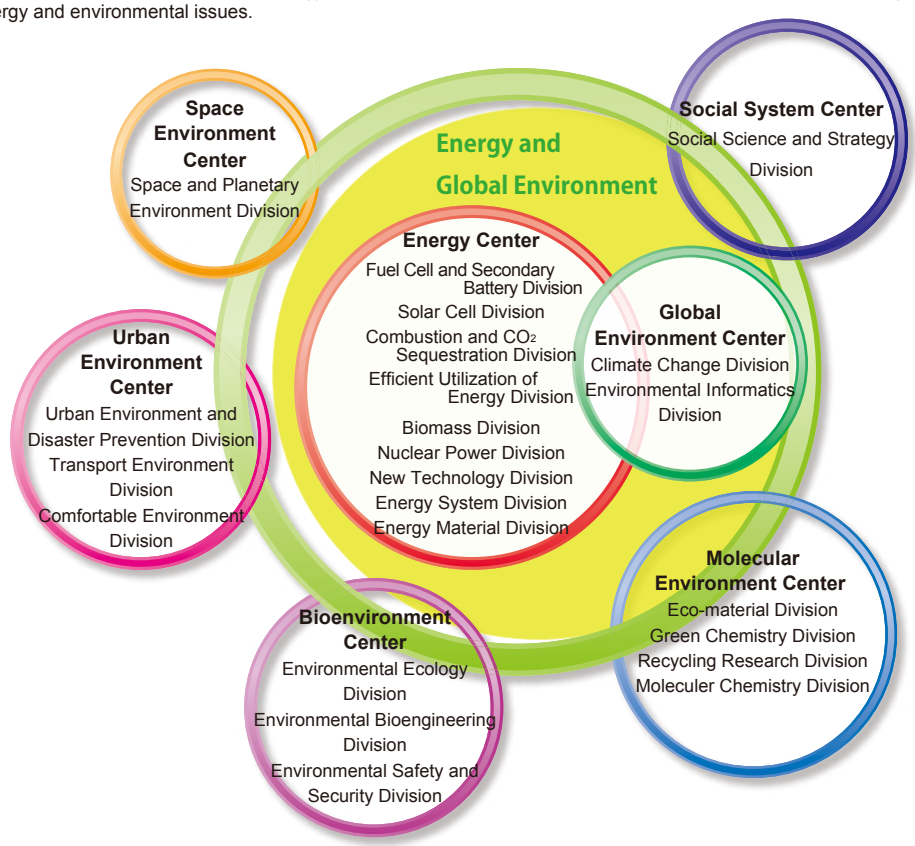
- Develops management plans for Informatics related organizations
- Conducts trial interdisciplinary education programs
  - Biological Information
  - Human-centered Informatics
  - Robot Informatics
  - Leading Information Technology Specialists
  :
- Conducts continuing education programs
- Establishes new research programs
- Public relations

Graduate Schools and Laboratories
External Educational/Research Organizations

New Organization for Informatics

Inter-departmental Organization for Environment and Energy

A joint organization of faculty members from the energy environment fields, the Inter-departmental Organization for Environment and Energy, was established in November 2009. It aims to create groundbreaking innovative technologies through interdisciplinary cooperation within Tokyo Institute of Technology. The Inter-departmental Organization for Environment and Energy also promotes the development of human resources and technologies, and contributes to the resolution of future energy and environmental issues.

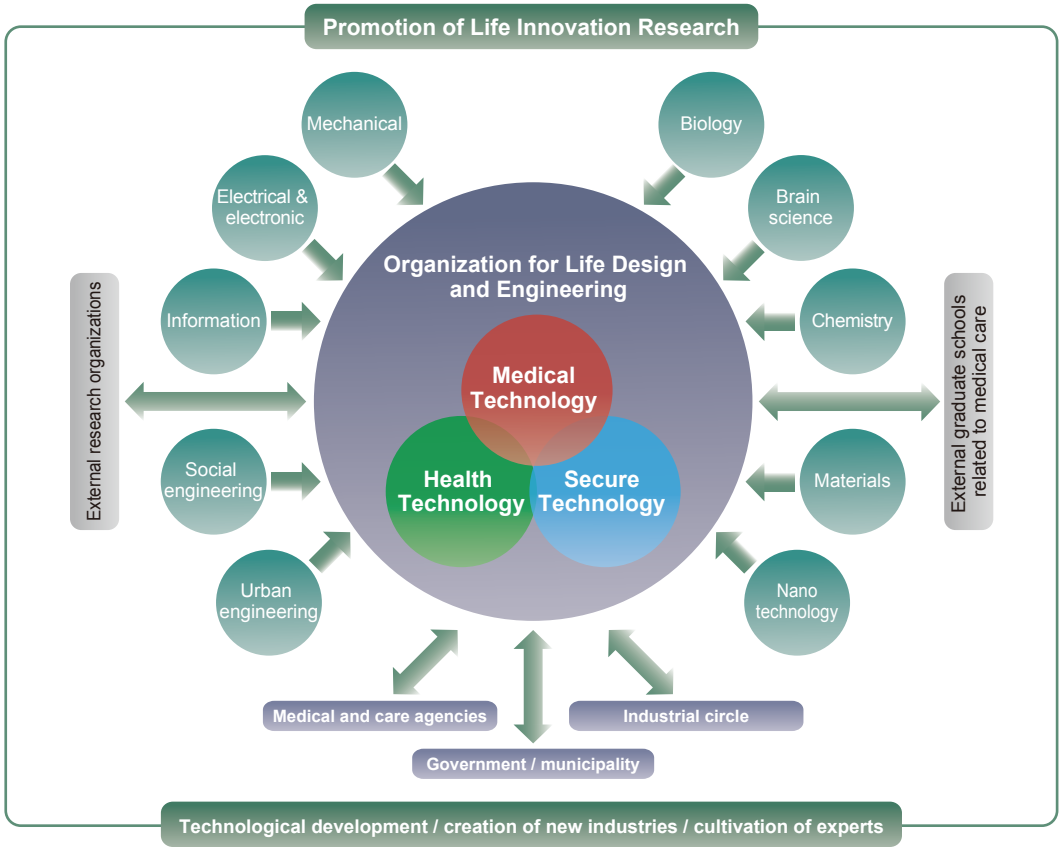


INSTITUTE, LABORATORIES, AND CENTERS

Organization for Life Design and Engineering

(As of October 1, 2010)

By calling for participation of Tokyo Tech faculty members from all research fields, the Organization for Life Design and Engineering organized academics into three research groupings ; medical technology, health technology and secure technology. The organization's activities are:
- To establish an information network between faculties and a researcher platform for new research development based on a fusion of diverse ideas
- To organize on and off campus seminars, workshops, and symposia for information exchange and R&D trend spotting related to life innovation
- To promote collaborative research by boosting cooperation with medical institutions and external research organizations
- To implement cross-sectional educational programs of life innovation by frequently organizing university-industry fora and regional technological seminars
- To foster experts who can respond to R&D and lead necessary innovations to deal with the aging society and a falling birthrate



Tokyo Tech Front

Tokyo Tech Front (Kuramae Kaikan) is a partnership between Tokyo Institute of Technology and its alumni organization known as Kuramae Kougyou Kai, the new building opened in May 2009. On top of becoming a new alumni center, the broader mandate of Tokyo Tech Front is to deepen the relationship between academia, society and the industry. Students, professors and alumni can use it for a broad range of activities, from staging seminars and symposiums to hosting lectures for the public.

INSTITUTE LIBRARIES, TOKYO TECH HIGH SCHOOL OF SCIENCE AND TECHNOLOGY, AND ACCOMMODATIONS

Institute Libraries (Ookayama Library and Suzukakedai Library)

http://www.libra.titech.ac.jp/welcome_e.php

Boasting the foremost collection in Japan of science and technology journals, the Institute Libraries have served as one of the government-appointed National Centers for Overseas Periodicals in these fields since 1977. The libraries annually collect a great number of worldwide journals with e-journals and conference proceedings, supporting and facilitating the research of users both on and off campus. The library website provides the ability to search multiple databases, and since 2007 the Tokyo Tech Research Repository (T2R2) has been aggregating all the education and research activities of the institute in a unified system of data storage, management and dissemination. Finally a brand new building is on schedule to open in July 2011.

New Library (2011)

Tokyo Tech High School of Science and Technology

(As of May 1, 2010)

http://www.hst.titech.ac.jp/english/

About 2% of high schools in Japan are specially supported by the government to promote high standards in science education. Tokyo Tech High School of Science and Technology has been officially designated as an SSH (Super Science High School) since 2002, which means that a focus on science and technology is present at all levels of learning, in order to better prepare the students for university and science careers. Indeed a few select students smoothly move on to Tokyo Tech each year, enjoying the continuity of science education they have been especially prepared for.

	High School of Science and Technology				
	Admission	Enrollment			
		1st year	2nd year	3rd year	Total
Department of Science and Technology	200	199(29)			199(29)
Applied Chemistry Course			40(11)	41(10)	81(21)
Information Systems Course			40(2)	42(3)	82(5)
Mechanical Systems Engineering Course			40(4)	40(2)	80(6)
Electrical and Electronics Course			41(2)	40(2)	81(4)
Architectural Design Course			31(15)	33(5)	64(20)
Total	200	199(29)	192(34)	196(22)	587(85)

Note: Figures given in parentheses represent the number of female students.

International House and other Accommodations

Tokyo Tech offers designated accommodation for students and researchers, providing easy access to each of the three campuses.

International House
Located at the south end of Ookayama campus, International House provides researchers from overseas with an apartment to live, supporting residents in their daily lives in Japan.

Umegaoka Dormitory
Accomodation for international students, located in Aoba-ku, Yokohama. It is within walking distance from Fujigaoka Station on the Tokyu-Den'entoshi line.

Shofu Dormitory
Another dormitory for international students, also located in Aoba-ku, Yokohama. The nearest station is Aobadai on the Tokyu Den'entoshi line.

Senzokuike International House
A women's dorm for both international and domestic students. Women researchers may also be accommodated. It is within a 15 minute walking distance from the Ookayama campus.

Shofu Gakusha (Dorm)
A dormitory for domestic male students, located next to Shofu Dormitory.

Tokyo Tech Nagatsuta House
A dormitory for international students, located in Midori-ku, Yokohama. The nearest station is Nagatsuta on the Tokyu Den'entoshi Line.

Tokyo Tech Aobadai House
A men's dorm for both international and domestic students. Male researchers may also be accommodated. It is located inside Shofu Gakusha.

House	Resident	Type of Accommodation	Number of Rooms	Area (m^2)
International House	International Researchers	Family	12	56
		Couple	15	39
		Single	73	18

NEW FEATURES OF RESEARCH PROGRAMS

The Global COE Programs at Tokyo Institute of Technology

(As of August 2010)

http://www.rso.titech.ac.jp/g-coe/gcoe_02_02.html

The Global COE program was introduced by MEXT as the successor to the 21st Century COE Program. Started in 2007, the program aims to further strengthen and enhance the functions of graduate schools and create centers of excellence to the world's highest standard. Tokyo Tech currently has 9 ongoing programs.

COE : Center of Excellence MEXT : Ministry of Education, Culture, Sports, Science and Technology

2007 ～

Evolving Education and Research Center for Spatio-Temporal Biological Network

Field of Study: Life Science
Graduate Schools/ Research Institutes: Bioscience and Biotechnology, Science and Engineering
Departments/ Centers: Life Science, Biological Sciences, Biological Information, Bioengineering, Biomolecular Engineering, Electrical and Electronic Engineering
Program Leader: Prof. TOKUNAGA,Makio
Partners: Tokyo Medical and Dental University Graduate School; RIKEN Brain Science Institute; University of California, Los Angeles, Molecular Biology Institute, Department of Microbiology and Molecular Genetics (USA); The Scripps Research Institute, Department of Molecular Biology (USA); Centre national de la recherche scientifique, IBMC, Département Machineries Traductionnelles (France)

The Amount of Subsidy for FY2010: 250,080,000 JPY

Education and Research Center for Material Innovation

Field of Study: Chemistry, Material Sciences
Graduate Schools/ Research Institutes: Science and Engineering, Interdisciplinary Science and Engineering
Departments/ Centers: Metallurgy and Ceramics Science, Organic and Polymeric Materials, Innovative and Engineered Materials, Materials Science and Engineering
Program Leader: Prof. TAKEZOE, Hideo
Partners: National Institute for Materials Science, Photocatalytic Materials Center; National Institute of Advanced Industrial Science and Technology, Nanotechnology Research Institute

The Amount of Subsidy for FY2010: 192,096,000 JPY

Education and Research Center for Emergence of New Molecular Chemistry

Field of Study: Chemistry, Material Sciences
Graduate Schools/ Research Institutes: Science and Engineering, Interdisciplinary Science and Engineering
Departments/ Centers: Chemistry, Chemistry and Materials Science, Applied Chemistry, Chemical Engineering, Electronic Chemistry, Environmental Chemistry and Engineering
Program Leader: Prof. SUZUKI, Keisuke
Partners: RIKEN Advanced Science Institute

The Amount of Subsidy for FY2010: 254,273,000 JPY

Computationism as a Foundation of the Sciences

Field of Study: Information, Electrical and Electronic Sciences
Graduate Schools/ Research Institutes: Information Science and Engineering, Science and Engineering, Interdisciplinary Science and Engineering
Departments/ Centers: Mathematical and Computing Sciences, Computer Science, Mathematics, Nuclear Engineering, Computational Intelligence and Systems Science, Information Processing
Program Leader: Prof. WATANABE, Osamu
Partners: ETH Zürich, Department of Science (Switzerland); University of California, San Diego, San Diego Supercomputer Center (USA)

The Amount of Subsidy for FY2010: 140,112,000 JPY

Photonics Integration - Core Electronics

Field of Study: Information, Electrical and Electronic Sciences
Graduate Schools/ Research Institutes: Interdisciplinary Science and Engineering, Science and Engineering
Departments/ Centers: Electronics and Applied Physics, Information Processing, Electrical and Electronic Engineering, Physical Electronics, Communications and Integrated Systems
Program Leader: Prof. KOYAMA, Fumio
Partners: University of California, Berkeley, Center for Optoelectronic Nanostructured Semiconductor Technologies (USA); University of Cambridge, Centre for Advanced Photonics and Electronics (UK)

The Amount of Subsidy for FY2010: 229,230,000 JPY

2008 ～

Nanoscience and Quantum Physics

Field of Study: Mathematics, Physics, Earth Sciences
Graduate Schools/ Research Institutes: Science and Engineering
Departments/ Centers: Physics(Condensed Matter Physics),Physics(Particle, Nuclear and Astro-Physics)
Program Leader: Prof. SAITO, Susumu
Partners: University of California, Berkeley Department of Physics (USA)

The Amount of Subsidy for FY2010: 146,380,000 JPY

International Urban Earthquake Engineering Center for Mitigating Seismic Mega Risk

Field of Study: Mechanical, Civil Engineering, Architectural and Other Fields of Engineering
Graduate Schools/ Research Institutes: Science and Engineering, Interdisciplinary Science and Engineering, Information Science and Engineering
Departments/ Centers: Architecture and Building Engineering, Civil Engineering, Built Environment, Environmental Science and Technology, Mechanical and Environmental Informatics
Program Leader: Prof. TOKIMATSU, Kohji
Partners: Pacific Earthquake Engineering Research Center

The Amount of Subsidy for FY2010: 235,850,000 JPY

Multidisciplinary Education and Research Center for Energy Science

Field of Study: Interdisciplinary, Combined Fields, New Disciplines
Graduate Schools/ Research Institutes: Science and Engineering, Interdisciplinary Science and Engineering, Decision Science and Technology, International Student Center, Innovation Management
Departments/ Centers: Mechanical and Control Engineering, Physical Electronics, Chemical Engineering, Applied Chemistry, Mechanical and Aerospace Engineering, Chemistry, Organic and Polymeric Materials, Metallurgy and Ceramics Science, International Development Engineering, Chemistry and Materials Science, Innovative and Engineered Materials, Electronic Chemistry, Environmental Chemistry and Engineering, Electronics and Applied Physics, Industrial Engineering and Management, Nuclear Engineering, Management of Technology
Program Leader: Prof. HIRAI, Shuichiro
Partners: Georgia Institute of Technology, Department of Mechanical Engineering (USA); Korea Advanced Institute of Science and Technology, Department of Mechanical Engineering (South Korea); Universität Stuttgart, Institut für Physikalische Electronik (Germany)

The Amount of Subsidy for FY2010: 213,810,000 JPY

2009 ～

From the Earth to "Earths": Interdisciplinary study on habitable planets

Field of Study: Interdisciplinary, Combined Fields, New Disciplines
Graduate Schools/ Research Institutes: Science and Engineering, Bioscience and Biotechnology, Interdisciplinary Graduate school of Science and Engineering
Departments/ Centers: Earth and Planetary Sciences, Chemistry, Biological Information, Biological Sciences, Environmental Science and Technology, Environmental Chemistry and Engineering
Program Leader: Prof. IDA, Shigeru
Partners: University of Tokyo, Atmosphere and Ocean Research Institute; University of Tokyo, Graduate School of Science, Department of Earth and Planetary Science; University of Tokyo, Department of Multi-disciplinary Science

The Amount of Subsidy for FY2010: 141,826,000 JPY

FY2007	1,455,220,000 JPY	(335,820,000 JPY)
FY2008	2,321,930,000 JPY	(535,830,000 JPY)
FY2009	2,343,791,000 JPY	(540,874,800 JPY)
FY2010	1,803,657,000 JPY	
Total amount of funding	7,924,598,000 JPY	(1,412,524,800 JPY)

Note. Figures given in parentheses represent overhead costs included in the Research fund.

NEW FEATURES OF RESEARCH PROGRAMS

Endowment Chairs of Private Companies

(As of November 1, 2010)

Division of e-Government System-care Engineering funded by NTT-DATA Corporation

Affiliation: Graduate School of Science and Engineering
This division provides a structured guidance on how to establish IT-Governance and keep information systems effective beyond their life cycle. Through analyses of practical examples, the division also provides useful and practical assistance for the Government concerning the e-Government system.

Carbon Alloy Catalyst Engineering [Nisshinbo Industries Endowed Chair]

Affiliation: Graduate School of Science and Engineering
This lecture course on carbon-based materials will focus on new research into the catalytic properties of carbon alloy. This research aims to establish carbon catalysts as a new scientific field of study through training of technical and research staff, and hopes to bring about advances in engineering applications.

Nomura Research Institute (NRI) Service Innovation Research

Affiliation: Center for Agent-Based Social Systems Science
The main purpose is basic research in the field of Service Innovation, among else through the use of agent-based social simulation techniques, analysis of the component business model in the service area, and fusion of bottom-up and functional approaches.

Materials for Energy Conversion (Funded by Toppan Printing)

Affiliation: Chemical Resources Laboratory
This division is active in basic research and teaching, while always keeping practical applications in mind. The main areas of development are the research of new materials for energy conversion, specifically the synthesis of polymers, e.g. by organometallic polycondensation using nickel complexes, and the preparation of polymer films for energy conversing devices. (Pyridine- and phenylene-based polymers for example)

Biometabolic Engineering (ALA) funded by SBI ALApromo Corporation

Affiliation: Frontier Research Center
This division will focus on the application of 5-aminolevulinic acid (ALA). This research aims to establish new medical technologies (tumor therapy, tumor diagnosis and treatment of various diseases related to basal metabolism).

The 130th Anniversary of Tokyo Institute of Technology Commemorative Course - Creative Food Science, Technology and Culture in the Future funded by Hisao Taki and Gourmet Navigator Incorporated

Affiliation: Graduate School of Innovation Management
This course aims to build a business model for the creation of a new food business and industry through innovation. In addition, this course is to train human resources for a new food business. In addition, several courses open for food.

Collaborative Research Chairs and Divisions

(As of May 1, 2010)

AGC Collaborative Research Division for Glass and Inorganic Materials

Collaborator: Asahi Glass Co., Ltd.
Term: April 1, 2010 - March 31, 2014
Affiliation: Materials and Structures Laboratory
Research Title: Basic research on glass, Development of new inorganic materials

MERS Collaborative Research Division

Collaborator: MERSTech, Inc.
Term: April 1, 2010 - March 31, 2013
Affiliation: Research Laboratory for Nuclear Reactors
Research Title: Advanced Electric Power Management by MERS Technology

Collaborative Research Division for Information Distribution Platform System

Collaborator: NTT Communications Corporation
Term: April 1, 2010 - March 31, 2012
Affiliation: Solutions Research Laboratory
Research Title: Research on Information Distribution Platform System

TEPCO Collaboration Research Unit

Collaborator: Tokyo Electric Power Company
Term: April 1, 2010 - March 31, 2012
Affiliation: Solutions Research Laboratory (AES Center)
Research Title: Advanced Electric Power Systems

Tokyo Gas Collaboration Research Unit

Collaborator: Tokyo Gas Co., Ltd.
Term: April 1, 2010 - March 31, 2013
Affiliation: Solutions Research Laboratory (AES Center)
Research Title: Smart Energy Network toward a Low Carbon Society

ENEOS Collaboration Research Unit

Collaborator: JX Nippon Oil & Energy Corporation
Term: April 1, 2010 - March 31, 2013
Affiliation: Solutions Research Laboratory (AES Center)
Research Title: Low Carbon Emission Energy System

Mitsubishi Corp. Collaboration Research Unit

Collaborator: Mitsubishi Corporation
Term: April 1, 2010 - March 31, 2015
Affiliation: Solutions Research Laboratory (AES Center)
Research Title: Renewable Energy Utilization

NTT/NTT Facilities Collaboration Research Unit

Collaborator: Nippon Telegraph and Telephone Corporation
NTT Facilities, Inc.
Term: April 1, 2010 - March 31, 2013
Affiliation: Solutions Research Laboratory (AES Center)
Research Title: Smart Energy Network in Next-generation Communities

Innovative Research Initiatives (26 Projects)

(As of September 1, 2010)

Field	Title	Project Leader	
Life Science	Study Program of Brain Informatics	Interdisciplinary Graduate School of Science and Engineering	Prof. NAKAMURA, Kiyohiko
	International Bio-Forum Tokyo Tech	Graduate School of Bioscience and Biotechnology	Prof. KITAZUME, Tomoya
	Medico-Dental Engineering Cooperative Research Initiative	Interdisciplinary Graduate School of Science and Engineering	Prof. OMATA, Toru
Information Technology	Development of Ultra-high-performance and Low-power Nano-device Integrated Circuit Technologies for Info-communications	Frontier Research Center	Prof. IWAI, Hiroshi
	Quantum Information Processing Devices	Quantum Nanoelectronics Research Center	Prof. ODA, Shunri
	Dependable Information System	Global Scientific Information and Computing Center	Prof. YOKOTA, Haruo
	Intelligent CAD/CAE for Next Generation	Graduate School of Science and Engineering	Prof. HAGIWARA, Ichiro
	Green and Dependable ICT Research Project	Solutions Research Laboratory	Prof. MASU, Kazuya
Environment	Value Added Remote Sensing	Interdisciplinary Graduate School of Science and Engineering	Prof. KOSUGI, Yukio
Nano-Technology & Materials	Development of New Industry Based of Ferrites	Graduate School of Science and Engineering	Assoc. Prof. NAKAGAWA, Shigeki
	Study on Nonequilibrium Dynamics in Condensed System by Time-resolved Structural Analysis	Frontier Research Center	Prof. KOSHIHARA, Shin-ya
	Nano/Micro Machines and Nems/Mems	Precision and Intelligence Laboratory	Prof. HATSUZAWA Takeshii
	Soft Processes : Environmentally Compatible Processings for Advanced Materials	Materials and Structures Laboratory	Assoc. Prof. MATSUSHITA, Nobuhiro
	Nanofiber Strategic Research Initiative	Graduate School of Science and Engineering	Prof. TANIOKA, Akihiko
	Nanoscale Photofunctional Materials	Chemical Resources Laboratory	Prof. IYODA, Tomokazu
	Development of Novel Quantum Functional Materials and their Application to Oxide Electronics by Nano-designing	Materials and Structures Laboratory	Prof. ITOH, Mitsuru
	Nano Thermodynamics	Graduate School of Science and Engineering	Prof. HASHIMOTO, Toshimasa
	Combinatorial Science Initiative	Graduate School of Science and Engineering	Prof. TAKAHASHI, Takashi
	State-of-the-art Inorganic Materials	Materials and Structures Laboratory	Prof. OKADA, Kiyoshi
Energy	Entropia Laser Initiative	Graduate School of Science and Engineering	Prof. YABE, Takashi
	Research and Development of Lead-bismuth Eutectic Coolant Utilization	Research Laboratory for Nuclear Reactors	Prof. SEKIMOTO, Hiroshi
	Innovative Hydrogen Production	Materials and Structures Laboratory	Prof. HARA, Michikazu
Infrastructure	Structural Integrity Monitoring and Smart Materials and Structures	Graduate School of Science and Engineering	Prof. KISHIMOTO, Kikuo
	Development of Long Life Sustainable Building Structure	Materials and Structures Laboratory	Prof. TANAKA, Kyoji
Frontier	Space Utilization for Safe and Advanced Society	Interdisciplinary Graduate School of Science and Engineering	Prof. ODAWARA, Osamu
	Versatile Innovative Plasma Science (VIPs)	Interdisciplinary Graduate School of Science and Engineering	Prof. HOTTA, Eiki

UNIVERSITY/INDUSTRY RELATIONS

Office of Industry Liaison

http://www.sangaku.titech.ac.jp/english/

Tokyo Tech's one-stop service for industry liaison

As a gateway to the one-stop service for university-industry cooperation activities, the Office of Industry Liaison (OIL) puts Tokyo Tech's efforts into practice, emphasizes cooperation between university and industry, creates new industries, contributes to the promotion of innovation, and strives to the further creation of intellectual properties. The OIL also focuses on international university-industry collaboration.

Organizational Alliances

One of OIL's major activities is the Research Alliance Program, which provides an opportunity for Tokyo Tech and a company to conduct organizational research. Tokyo Tech concluded agreements with the following partners in the past resulting in successful research achievements.

Industry	Company Name	Date of Agreement	Theme
Manufacturing Companies	Sanyo Electronic Co., Ltd.	21 Jan., 2004	Environmental Technology of the Future
	FUJITSU LABORATORIES LTD.	21 Jan., 2004	Information Technology
	Mitsubishi Chemical Corporation	22 Jan., 2004	Chemical Process and New Functional Materials
	Mitsubishi Electric Corporation	17 Feb., 2004	Future Devices Technology
	Panasonic Corporation	11 Mar., 2004	Core Technology of Electronics
	TOPPAN PRINTING CO.,LTD.	13 Oct., 2004	Technology of Coating and Nano-thin Layer
	Sumitomo Chemical Co.,Ltd.	06 Apr., 2005	Advanced Materials, Catalysers, and Life Science
	Canon Inc.	02 Aug., 2005	Advanced Materials and Imaging Technology
	Semiconductor Technology Academic Research Center	01 Sep., 2006	Advanced Semiconductor Technology
	Microsoft Corporation	13 Sep., 2007	Computing Technology and its Application to Science and Engineering
Non-manufacturing Companies	Mitsubishi Corporation	22 Jul., 2004	Industrialization of New Technology and IP
	Sumitomo Mitsui Banking Corporation	01 Oct., 2004	Technology Matching
	NTT Corporation	10 Sep., 2008	Research and Development Information and Telecommunications
	Nomura Research Institute,Ltd.	22 Sep., 2008	Research and Development on Service Innovation
Non-profit Organization	Kanagawa Academy of Science and Technology	02 Apr., 2007	R&D for Industrial Development and Fostering R&D Human Resources

Tokyo Tech Launched Venture Companies

(As of May 1, 2010)

Approved on:	Company	Summary of Business	Type	Conferred on:
2003.1.9	Nippon CAD Co., Ltd. http://www.ncad.co.jp/	Manufacture, construction and maintenance of mechanical and computer systems for golf driving ranges like chain conveyors for ball trolleys and the tee up devices.	3	1977.4.28
2003.1.9	OKK Inc.	Development and sales of original products featuring measurement with an optical technology.	3	1981.4.11
2003.1.9	Brain Functions Laboratory, Inc. http://www.bfl.co.jp/	Development and sales of "Emotion Spectrum Analyser (ESA)," a system to display emotion quantitatively through EEG-analysis	2	1994.2.1
2003.1.9	New Technology Management Co., Ltd. http://www.newtech-ECF.com/	R&D of ECF (Electro-Conjugate Fluid) technology and its industrial applications.	2	1995.7.21
2003.1.9	Tytemn Corporation http://www.tytemn.co.jp/	Sales, manufacturing, and R&D on high performance slurries for silicon water final polishing and for CMP in IC processing.	2	1996.4.3
2003.1.9	DINO Co., Ltd. http://www.dino.co.jp/	Development and sales of computer software.	3	1998.8.14
2003.1.9	Fu's Lab Co., Ltd. http://www.whoselab.com/	Development & planning of 3-D Camera Systems, Image Storage Systems, and Image Processing Software for Improvement and Restoration.	2 3	1999.7.30
2003.1.9	EcoMEET Solutions Co., Ltd. http://www.sangakuplaza.jp/page/176106	Basic planning and optimum design for industrial waste disposal process and facilities based on the system of waste gasification and power generation as the core technologies.	1 2	2000.7.25
2003.1.9	ChemGenesis Inc. http://www.chemgenesis.com/	Development, manufacture and sales of chemical libraries and biological tools based on combinatorial chemistry.	1	2001.3.1
2003.1.9	BeyondLSI, Inc.	R&D, manufacture and sales of fingerprint authentication products.	1	2001.11.30
2003.1.9	Optical Comb, Inc. http://www.optocomb.com/	Development, manufacturing and sales of “Optical Frequency Comb Generators”, application products and related services.	1	2002.4.1
2003.1.9	GenoMembrane, Inc. http://www.genomembrane.com/	Gene cloning, gene expression and functional analysis of drug transporters.	1 2	2002.4.1
2003.1.9	Aphoenix, Inc. http://www.aphoenix.com/	Drug discovery, development and production based on magnetic bead technology.	1	2002.4.10
2003.1.9	ai-Phase Co., Ltd. http://www.ai-phase.co.jp/	Manufacture and sales of thermal property measurement systems and thermal analysis systems. High quality services of the thermal property measurement and the thermal analysis.	1 2	2002.4.16
2003.1.9	BeyondMPEG, Inc.	Moving picture codec business including video phone and video security system.	1	2002.7.23
2003.5.15	Micro Energy, Ltd. http://www.microenergy.co.jp/	Development, manufacturing and sales of gasification power generation systems using industrial waste as fuel.	1	2003.4.9
2003.7.15	Connectous Co. http://www.connectous.co.jp/	R&D, sales, operations and management of computer systems. Engineer dispatch. Software development. Information systems consulting and training.	3	2001.12.20
2003.7.15	Thin-Film Process Soft, Inc.	Development of thin film manufacturing processes for LC and PDP, and device sales. Development, manufacturing and sales of solar cell panels processing machines.	2	2000.7.7
2004.5.18	Celagix Research Ltd. http://www.celagix.com/	Development of biomaterials and nano-particles of carbonate apatite for gene delivery.	1	2002.7.15
2004.5.18	HiBot Corporation http://www.hibot.co.jp/	Research, development and sales of robots	2 3	2004.4.15
2004.6.15	Tokyo Geotech Co., Ltd	Development, production and sales of simulation software 'DACSAR' analyzing the behavior of subsoil accompanied by construction of civil engineering /architecture structures, analyzing subsoil in natural disasters.	1 2 3	2004.5.18
2004.8.9	TRIONSITE http://www.trionsite.com/	Supporting industry promotion policies taken by local governments with planning and implementation. Survey and consulting. Establishment, sales, and operation of websites.	2 3	2004.7.2
2004.9.13	eCompute Corporation http://www.ecompute.co.jp/	Provides software consulting and development, specializing in image processing, virtual reality and linux system.	1 2	2004.1.15
2004.9.13	Tokyo Tech Engineering Solutions, Inc. http://www.ttes.co.jp/	Survey, planning, design, safety-check, monitoring, and retrofit of construction products.	2 3	2004.7.22
2004.9.13	mimi.inc	Development and sales of application software for cellular phones.	3	2004.5.18
2004.11.2	Luvina Software Company	Software development and operation. Consulting on investments in Vietnam.	3	2004.8.6
2004.12.13	Techno Management Solutions Ltd. http://www.techmas.co.jp/	Development and sales of next-generation management systems and consulting service for a process plant life cycle.	2	2004.10.1
2004.12.13	HUB Networks, Inc. http:/www.hub.jp/	Development of software and hardware control systems.	2 3	2003.4.10
2005.8.29	Chimeraworks http://chimeraworks.jp/	Software development, sales, and management. R&D of information technology. R&D of medical devices.	3	2005.8.4
2005.10.11	Interlocus, Inc. http://i-locus.com/	R&D, sales and education on CAD / CAM / CAE / CG systems. Providing engineering services and/or solutions.	1 2	2005.9.9
2005.10.11	Kawazoe Frontier Technology, Co., Ltd.	R&D of materials technology and technology consulting services on hydrogen energy systems.	2	2003.1.6

UNIVERSITY/INDUSTRY RELATIONS

Approved on:	Company	Summary of Business	Type	Conferred on:
2005.12.6	AMSIS. Inc. http://www.ammsys.jp/	R&D, design, production and sales of semiconductor devices and modules for microwave- and millimeterwave-systems	2	2005.10.11
2006.2.27	Oisix Co., Ltd. http://www.oisix.com/	Online food retailing. Food retailing working with a network of dairies and alcoholic drinks retailers.	3	2000.6.1
2006.3.14	Technovarth http://www.technovarth.jp/	Software development, sales, lease, and maintenance and management services.	3	2006.2.8
2006.4.25	Kozo Zairyo Building Research Co., Ltd.	R&D and technology consulting services on building steel structures and antiseismic structures.	2	1986.10.1
2007.2.13	Electra Co.Ltd. http://www.electra-mg.com/	Development, construction, manufacture of natural energy storage and recycle system	2	2007.1.18
2007.2.27	MERSTech, Inc. http://www.merstech.com/	Industrialization and Commercialization of MERS technology based power electronics products and services (MERS:Magnetic Energy Recovery Switch)	1	2007.1.15
2007.4.2	iMott Inc. http://www.imott.co.jp/	R&D or consultation on technology of segmented-DLC coating, its coating service and patents licensing	1	2007.2.8
2007.4.2	PRESYSTEMS, Inc. http://www4.ocn.ne.jp/~presys	Sales and developments of our testing tools on software systems.	2 3	2002.2.1
2007.7.17	Ideallink Inc.	Development of documents sharing web site called "Hot.Docs" [URL: hotdocs.jp] You can think of Hot.Docs as a big online library where everyone can publish original content.	3	2007.5.1
2007.7.23	PopLiberal Inc. http://www.ppll.jp/	Research, development and sales of computer software mainly on the web application.	3	2007.5.25
2007.9.10	PhosMega Co., Ltd. http://www.phosmega.com/	Developing medical and electronic measurement equipment, robots, and manufacture and sales of prototype instrumentation and systems.	2	2007.8.10
2007.10.9	Visual Technology Laboratory Inc. http://www.vtl.co.jp/	Development and Sales of Simulation software on lighting design, color application, landscape design, and patent licensing and consultation on them	1 2	2007.8.17
2007.11.19	Tech Engine Co.,Ltd. http://techengine.jp/	Information quality control and development.	3	2007.5.1
2008.3.17	INFERRET JAPAN K.K. http://www.inferret.jp/	Development of mobile-oriented applications based on technologies such as automatic speech recognition (ASR) and natural language processing (NLP). Special focus is on carrier independent voice / speech enabled search applications.	2	2007.8.9
2008.5.26	Inputex Corporation http://www.inputex.com/	Haptic/Tactile interfaces. Licensing, development and sales of components, development tools and embedded systems for quick and flexible human-machine user interfaces.	1	2008.3.27
2008.10.6	Plasma Concept Tokyo Inc. http://www.pc-tokyo.co.jp/	Atmospheric plasma sources; development, consultation and sales.	2	2008.7.2
2008.11.17	MCX Corporation	Energy supply systems and facilities, heat exchanger and related equipment; Research, development, consultation and sales.	2	2008.3.3
2009.3.6	EffecTech Institute of Strategy, Inc. info@effectech.co.jp	Strategy structuring for technology management, new business development, and investigation research for science and technology policy.	2 3	2008.5.2
2009.3.6	MieruPC Inc. http://www.mierupc.com/	Development, manufacture and sales of computers and computer-related products.	2 3	2009.2.19
2009.6.16	milog Inc. http://milog.co.jp/	Businesses related to site monitoring, smart phones and applications for SNS platforms.	3	2009.4.6
2009.9.18	NuSAC Inc. http://www.nusac.jp/	Surveys, research, education, personnel training, recruitment and proposals for solutions related to nuclear energy.	2	2009.4.28
2010.1.7	Bi2-Vision Co. http://bi2vision.com/	Sales of 3D photographic systems. Sales of 'active stereo vision systems' for robotics researchers at universities and at public and private research institutes.	1	2009.8.28
2010.3.12	Meko Edu. http://www.s-crams.com/	Educational guidance to overseas students, cram school operation, and advisory service for studying in Japan.	3	2009.4.2

Note: Type 1. Business making use of a patent obtained by Tokyo Tech staff or student
Type 2. Business making use of research and/or techniques developed on campus
Type 3. Business established by Tokyo Tech student(s) or with the student(s) involved.
Companies liquidated after conferral are not listed above.
Dates are shown in year-month-day format.

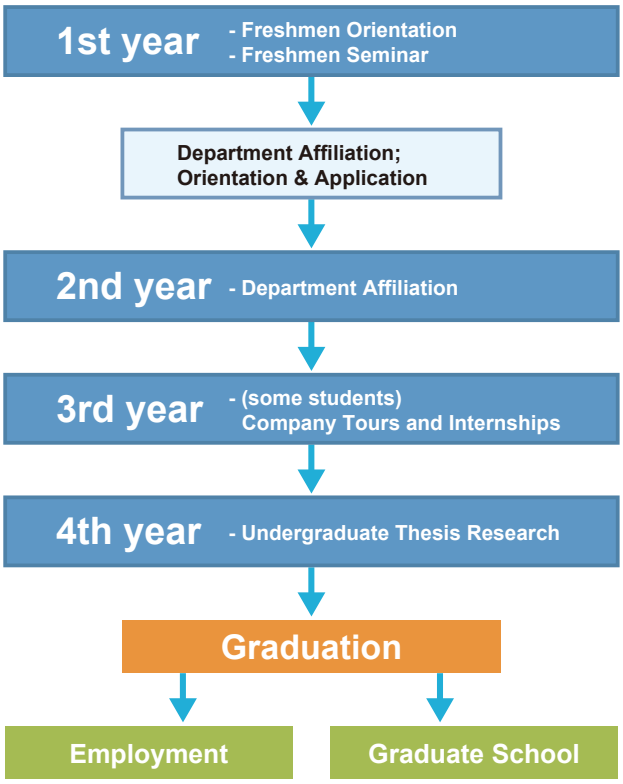
NEW FEATURES OF EDUCATION PROGRAMS

The flow from admission to graduation



About the Admission by Group system

Before choosing a department, freshmen first belong to one of the groups that are under each of the three schools (Science, Engineering, Bioscience and Biotechnology). This allows time for students to find out the most appropriate path for them before starting a departmental affiliation in the second year. (In some cases students may move on to a department outside of their initial group)

List of subjects by group

School of Science	Group 1	Mathematics	
		Physics	
		Chemistry	
		Information Science	
		Earth and Planetary Sciences	
School of Engineering	Group 2	Metallurgical Engineering

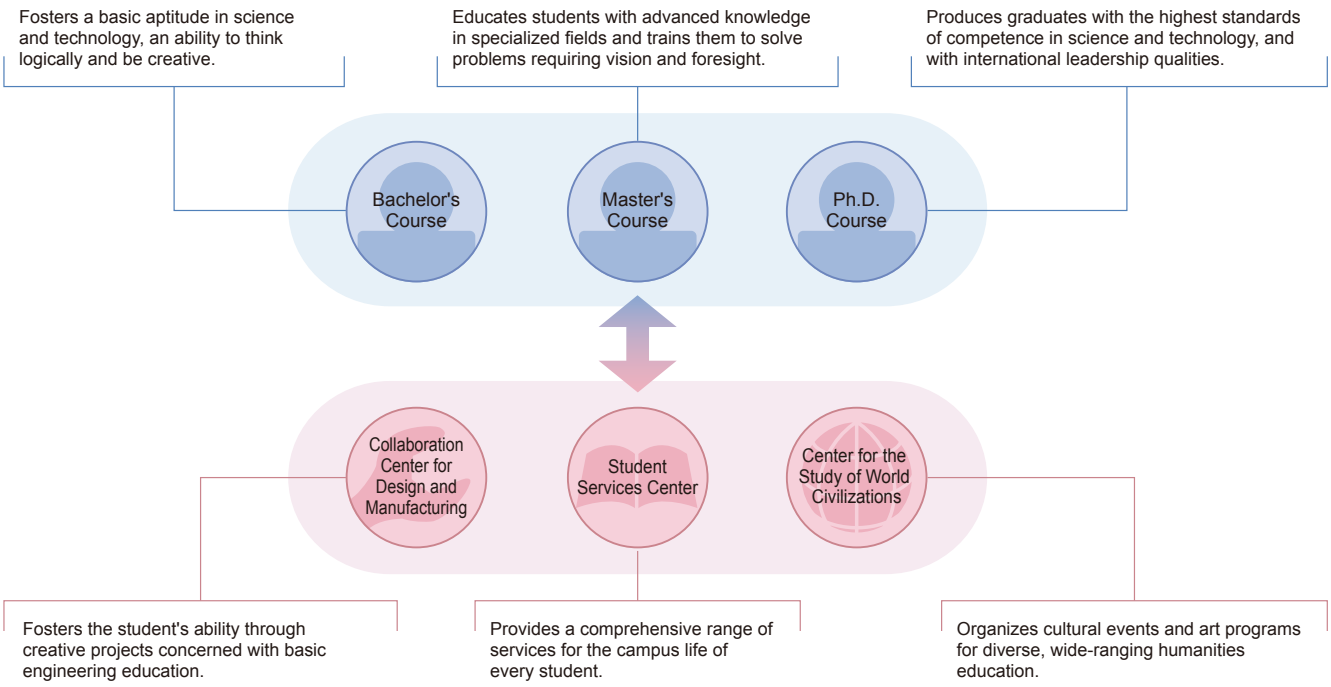
NEW FEATURES OF EDUCATION PROGRAMS

Nurturing Creative People



Undergraduate Education Programs

Characterized by a high level of originality and expert teaching in Science and Technology, Tokyo Tech's innovative education programs for undergraduates have won widespread acclaim. For example Four University alliance provides students with the opportunity to expand their horizon of knowledge and experience while acquiring a dual bachelor's degree. The participating institutions are Tokyo Medical and Dental University, Tokyo University of Foreign Studies and Hitotsubashi University.

Graduate Education Programs

Tokyo Tech offers a wide range of graduate education programs in science and technology, covering numerous research fields. The varied nature of these programs enables students to learn in conditions suitable to their aims and experience. Many of them benefit from the support of the government (MEXT), which provides funding for educational innovation in education.

- The Unified Graduate Program allows students to be awarded a doctoral degree in a shorter period than the standard graduate program
- The Dual Degree Program enables students taking a doctoral course to gain a professional master's degree in addition
- The Special Graduate Course offers integrated research across various departmental boundaries
- The Joint Graduate School Program with Tsinghua University, China, provides students with the opportunity to study on both campuses and obtain a dual master's or doctoral degree.

International Graduate Program

http://www.gakumu.titech.ac.jp/nyusi/prospectus/international_gp_e.html

For many years, Tokyo Tech has admitted international students from overseas countries and provided them with the highest standard of education. Based on past experiences, the university launched "International Graduate Program" in 2007 to provide opportunities to pursue advanced studies leading to Ph.D. degrees, or Master's degrees in some cases, in English. The students are selected internationally with priority given to graduates or students of Tokyo Tech's partner universities that have concluded exchange agreements. Of those students selected, 69 outstanding students are chosen to be awarded the Japanese government scholarships.

The study fields span various subjects of science and technology, many of which are related to issues of global interest. The students are given an opportunity to study and conduct research under the supervision of faculty members instructing beyond departmental boundaries. Besides scientific and technological research, Japanese language courses from introductory to advanced levels and classes on Japanese culture are also provided. The courses and classes aim to facilitate and enhance quality of their life in Japan and prepare them for work or future opportunities in Japan.

Program

- Sustainable Engineering Program
- Education Program through International Collaboration on Architecture and Urban Design
- International Bioscience and Biotechnology Course Program
- International Program for Interdisciplinary Science and Engineering
- Education Program of Japanese Advanced Information Technology
- International Program on Effective Utilization of Technology in Graduate School of Decision Science and Technology
- International Program on Earthquake Engineering
- Tokyo Tech-Tsinghua Joint Graduate Program
- Tokyo Tech-RIKEN International School

Creativity Education and Accredited Subjects

The Educational Planning Office at Tokyo Tech encourages students to develop the creativity that has always been at the heart of science and technology. A series of specially designed and accredited subjects, both at undergraduate and graduate level, have been evaluated as having exceptional educational standards and fostering creativity.

There are over 70 subjects including; Column Land; Crafts; Creative Design for Bioscience and Biotechnology I, II; Creative Experiments on Electrical and Electronic Engineering; Creativity Laboratory in Metallurgy; Laboratory Works in Concrete Materials and Structures; Mechanical Design Projects I, II; Mechanical Engineering Literacy; System Modeling; Transdisciplinary Collaboration Practice

Number of Students Participating in the "Joint Education Course" of the Four-University Alliance

Students can expand their horizon of knowledge through a Joint Education Course offered by a four-university alliance; Tokyo Institute of Technology, Tokyo Medical and Dental University, Tokyo University of Foreign Studies, and Hitotsubashi University

OVERSEAS COLLABORATION

International collaboration creates new opportunities and expands the global reach of Tokyo Institute of Technology for the benefit of all participants. International agreements covering academic and student exchange offer a bridge between Japan and over three dozen countries in all continents, which students and researchers can use to further their research and share their progress with an ever growing community of top-level scientists. Specifically, Tokyo Institute of Technology has reorganized its international functions under the International Office, which formulates the global strategy to strengthen collaborative partnerships abroad, while domestically focusing on developing a more international environment on campus. This internationalization makes it easier for overseas researchers to come to Japan, and better prepares Japanese researchers to go abroad.

International Office

http://www.ipo.titech.ac.jp/english/index.html

Students

Domestic students

- Help improve English proficiency and/or other foreign language skills
- Encourage study abroad
- Foster an international mindset
- Provide advice on international career development

International students

- Conduct more PR programs
- Admission system reform
- Reinforce scholarship system
- Promote cooperation with partner universities

Academics

- Provide support to enhance English-language proficiency
- Increase multinational academic staff
- Promote exchanges with overseas institutions
- Increase the number of visiting scholars from overseas
- Promote and organize more English-language meetings on the campus

Management

- Reorganize into the integrated international office
- Establish an international advisory board
- Improve English language skills among office staff
- Provide more information in English
- Support international industry-university-government alliance projects

Curriculum

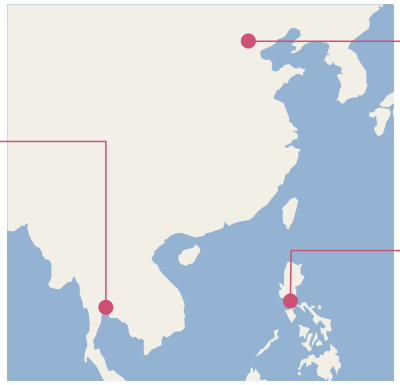
- Propose the introduction of academic year alternatives
- Restructure and reinforce the International Graduate Program
- Provide distance learning opportunities to overseas students
- Joint postgraduate programs
- Education via satellite communication network/over the Internet

Overseas Offices

Tokyo Institute of Technology has university-wide exchange agreements and departmental agreements with close to 100 universities. To facilitate strategic and collaborative partnerships, we have established three overseas offices in Thailand; the Philippines; and China.

Tokyo Tech Office, Thailand

Founded in the Thailand Science Park in 2002, this office offers distance education using satellite communication network and high capacity internet, while also conducting a project called Thailand Advanced Institute of Science and Technology-Tokyo Tech (TAIST) in cooperation with the National Science and Technology Development Agency of Thailand (NSTDA).



Tokyo Tech Office, China

Founded in 2006 on the Tsinghua University campus, Beijing, this office seeks to promote exchange programs. Notably, the Tokyo Institute of Technology-Tsinghua University Joint Graduate Program allows students to obtain a dual degree.

Tokyo Tech Office, the Philippines

Founded in 2005 on the De La Salle University campus, Manila. Satellite communication and a TV conference system are available to support the various research and education projects under way, reflecting the longstanding friendship between the two countries.

JSPS International Scientific Cooperation Programs Awarded to Tokyo Tech

(FY2009)

Programs	Number of programs
Core University Program	1(1)
Bilateral Programs (Joint Research and/or Joint Scientific Seminars)	14(7)
Japan-France Integrated Action Program<SAKURA>	1(1)
JSPS International Training Program	2(1)
Asia and Africa (AA) Science Platform Program	1
RONPAKU(Dissertation Ph.D.)Program	6(4)
Program for Sending Researchers to Specified Countries	1
Travel Grant for Academic Meetings	4
Postdoctoral Fellowship for Research Abroad	5(4)
Invitation Fellowship Program for Research in Japan(Short-term)	16(1)

Programs	Number of programs
Invitation Fellowship Program for Research in Japan(Long-term)	2(1)
Invitation Fellowship Program for Research in Japan(nominated by Counterpart Institution)	5
Postdoctoral Fellowship Program for Foreign Researchers(Standard)	55(36)
Postdoctoral Fellowship Program(Short-term)-Quotas for North American and European Researchers	4(2)
JSPS Summer Program	6
Institutional Program for Young Researcher Overseas Visits	2
Excellent Young Researcher Overseas Visit Program	6

Note: Figures given in parentheses represent the number of ongoing programs which have started in or before 2008. JSPS stands for the Japan Society for the Promotion of Science.

Dispatch of Technical Cooperation Experts by Japan International Cooperation Agency (JICA)

SALIM, Chris	Graduate School of Science and Engineering	AUN/SEED-Net Phase2	Indonesia	Nov.1-Nov.5
NAKAZAKI, Kiyohiko	Graduate School of Science and Engineering	AUN/SEED-Net Phase2	Indonesia, The Philippines	Nov.1-Nov.7
IKEDA, Syunsuke	Graduate School of Science and Engineering	AUN/SEED-Net Phase2	Indonesia	Nov.1-Nov.5
FUKUDA, Daisuke	Graduate School of Science and Engineering	Preparatory Study on Dhaka City Urban Transport Network Development Project in Bangladesh	Bangladesh	Oct.31-Nov.5
HANAOKA, Shinya	Graduate School of Science and Engineering	Preparatory Study on Dhaka City Urban Transport Network Development Project in Bangladesh	Bangladesh	Nov.1-Nov.5
MIKI, Chitoshi	Graduate School of Science and Engineering	AUN/SEED-Net Phase2	Vietnam	Nov.5-Nov.7
OKADA, Kiyoshi	Materials and Structures Laboratory	AUN/SEED-Net Phase2	Thailand	Nov.18-Nov.21
MATSUSHITA, Yoshihisa	Graduate School of Science and Engineering	Egypt-Japan University for Science and Technology	Egypt	Dec.4-Dec.13
NISHIHARA, Akinori	Center for Research and Development of Educational Technology	AUN/SEED-Net Phase2	Thailand	Dec.23-Dec.27
YAI, Tetsuo	Interdisciplinary Graduate School of Science and Engineering	Comprehensive National Transportation Master Plan in Egypt	Egypt	Jan.17-Jan.25
YOSHIKAWA, Kunio	Frontier Research Center	AUN/SEED-Net Phase2	Thailand	Jan.18-Jan.24
AKAGI, Hirofumi	Graduate School of Science and Engineering	AUN/SEED-Net Phase2	Thailand	Feb.1-Feb.5
TANJI, Yasunori	Graduate School of Bioscience and Biotechnology	AUN/SEED-Net Phase2	Cambodia	Feb.9-Feb.13
WACHI, Masaaki	Graduate School of Bioscience and Biotechnology	AUN/SEED-Net Phase2	Cambodia	Feb.10-Feb.13
HONGO, Yuichi	Graduate School of Bioscience and Biotechnology	AUN/SEED-Net Phase2	Cambodia	Feb.10-Feb.13
Cross, Jeffery Scott	Graduate School of Science and Engineering	AUN/SEED-Net Phase2	Indonesia	Feb.8-Feb.11
MATSUSHITA, Yoshihisa	Graduate School of Science and Engineering	Egypt-Japan University for Science and Technology	Egypt	Feb.16-Feb.22
YOSHIKAWA, Kunio	Frontier Research Center	AUN/SEED-Net Phase2	Vietnam	Feb.23-Feb.28
OHMACHI, Tatsuo	Interdisciplinary Graduate School of Science and Engineering	AUN/SEED-Net Phase2	Indonesia	Feb.24-Mar.1
YAMATO, Takehiko	Graduate School of Decision Science and Technology	Ethnic Diversity and Economic Instability in Africa: Policies for Harmonious Development	Kenya	Feb.27-Mar.7
HINODE,Hirofumi	Graduate School of Science and Engineering	AUN/SEED-Net Phase2	Vietnam	Mar.7-Mar.10
ABE, Naoya	Graduate School of Science and Engineering	AUN/SEED-Net Phase2	Vietnam	Mar.6-Mar.10
MORI, Shinsuke	Graduate School of Science and Engineering	AUN/SEED-Net Phase2	Vietnam	Mar.7-Mar.9
HANAOKA, Shinya	Graduate School of Science and Engineering	Preparatory Study on Dhaka City Urban Transport Network Development Project in Bangladesh	Bangladesh	Mar.6-Mar.9
FUKUDA, Daisuke	Graduate School of Science and Engineering	Preparatory Study on Dhaka City Urban Transport Network Development Project in Bangladesh	Bangladesh	Mar.6-Mar.9
YAMAKITA, Masaki	Graduate School of Science and Engineering	AUN/SEED-Net Phase2	Thailand, Cambodia	Mar.7-Mar.18
KURABAYASHI, Daisuke	Graduate School of Science and Engineering	AUN/SEED-Net Phase2	Malaysia	Mar.19-Mar.24

OVERSEAS COLLABORATION

Academic Cooperation Agreements (University-wide Agreements)

(As of September 1, 2010)

Region	Countries and Area	University/Institute	Concluded	Area of Exchange
Asia	China	Harbin Institute of Technology	1980.10	F.S.I.
		Tsinghua University	1985.4	F.S.I.
		Shanghai Jiao Tong University	1991.8	F.S.I.
		Peking University	1991.8	F.S.I.
		Xi'an Jiaotong University	1991.8	F.S.I.
		Zhejiang University	1993.9	F.S.I.
		Beijing Institute of Technology	1993.12	F.S.I.
		University of Science and Technology of China	1997.9	F.S.I.
		Dalian University of Technology	2006.11	F.S.I.
		Tongji University	2007.4	F.S.I.
		Tianjin University	2007.8	F.S.I.
		The Hong Kong University of Science and Technology	2010.4	F.S.I.
	India	Indian Institute of Technology Delhi	1994.7	F.S.I.
	Indonesia	Bandung Institute of Technology	1988.6	F.S.I.
		University of Indonesia	1992.12	F.S.I.
		Gadjah Mada University	2000.2	F.S.I.
	Korea	Korea Advanced Institute of Science and Technology (KAIST)	1986.5	F.S.I.
		Korea Institute of Science and Technology (KIST)	1991.12	F.I.
		Korea Maritime University	1992.7	F.S.I.
		Korea University	1992.9	F.S.I.
		Kyungpook National University	1993.7	F.S.I.
		Hanyang University	1996.4	F.S.I.

HISTORY

History

1881 May
Tokyo Institute of Technology was founded by the Japanese Government, Department of Education, as the Tokyo Vocational School.

1890 March
Tokyo Vocational School was renamed Tokyo Technical School.

1901 May
Tokyo Technical School was renamed Tokyo Higher Technical School.

1929 April
The status of Tokyo Higher Technical School was elevated to a degree-conferring University as **Tokyo Kogyo Daigaku** (Tokyo Institute of Technology).

1949 May
The enactment of the National School Establishment Law promoted the reorganization of Tokyo Institute of Technology so as to comply with the nation's education system reform, extending its three-year courses into four years and establishing the School of Engineering within the university.

1951 April
The former Denpa Kogei High School and Kogei High School of Chiba University were integrated into the Technical High School, an affiliated high school, to the Institute.

1953 April
The Graduate School of Engineering was established.

1954 April
Tokyo Tech's six Research Laboratories: the Research Laboratory of Building Materials, the Research Laboratory of Resources Utilization, the Research Laboratory of Precision Machinery, the Research Laboratory of Ceramic Industry, the Research Laboratory of Electronics, and the Research Laboratory of Fuel Science, which were established in 1934, 1939, 1939, 1943, 1944, and 1944, respectively, were integrated and reorganized into four research laboratories: the Research Laboratory of Building Materials, the Research Laboratory of Resources Utilization, the Precision and Intelligence Laboratory and the Research Laboratory of Ceramic Industry.

1955 July
The School of Engineering was renamed the School of Science and Engineering.

1956 April
The Graduate School of Engineering was renamed the Graduate School of Science and Engineering.

1958 March
The Research Laboratory of Building Materials and the Research Laboratory of Ceramic Industry were integrated and reorganized into the Research Laboratory of Engineering Materials.

1964 April
The Research Laboratory for Nuclear Reactors was established.

1967 June
The School of Science and Engineering was divided into the School of Science and the School of Engineering. Tokyo Tech's affiliated high school, the Technical High School, became attached to the School of Engineering.

1971 April
The Health Service Center was established.

1975 April
The Interdisciplinary Graduate School of Science and Engineering was established at the Nagatsuta campus (now called the Suzukakedai campus).

1976 May
The Computer Center was established.

1979 April
The International Cooperation Center for Science and Technology was established.

1982 April
The Center for Research Cooperation and Information Exchange was established.

1983 April
The Research Center for Educational Facilities was established.

1988 April
The Education Center for Foreign Students was established. Also the Kusatsu-Shirane Volcano Observatory was established.

1989 May
The Gene Research Center was established in Ookayama (later it moved to the Suzukakedai campus).

1990 June
The School of Bioscience and Biotechnology was established on the Nagatsuta campus.

1991 April
The Experimental Center for Very Low Temperature and Energy Technique established in 1981 was reorganized into the Research Center for Very Low Temperature System.

1992 April
The Graduate School of Bioscience and Biotechnology was established on the Nagatsuta campus. The Research Center for Carbon Recycling and Utilization was established.

1993 April
The Research Center for Educational Facilities was reorganized into the Research and Development Center for Educational Facilities.

1994 April
The Graduate School of Information Science and Engineering was established.

June
The Education Center for Foreign Students was reorganized into the International Student Center. The Research Center for Quantum Effect Electronics was established. The Research Center for Experimental Biology was established.

1996 April
The Graduate School of Decision Science and Technology was established.

May
The Foreign Language Research and Teaching Center was established. The Research Laboratory of Engineering Materials was reorganized into the Materials and Structures Laboratory.

1997 April
The Radioisotope Research Center was established.

1998 April
The Center for Research Cooperation and Information Exchange was reorganized into the Frontier Collaborative Research Center.

1999 April
The Center for Research in Advanced Financial Technology was established.

2000 April
The Kusatsu-Shirane Volcano Observatory was reorganized into the Volcanic Fluid Research Center.

2001 April
The Computer Center and the International Cooperation Center for Science and Technology were reorganized into the Global Scientific Information and Computing Center. The Research Center for Very Low Temperature System was reorganized into the Research Center for Low Temperature Physics.

May
The Nagatsuta campus has been renamed the "Suzukakedai" campus.

November
The Research Strategy Office was established.

2002 April
The Research Center for Carbon Recycling and Utilization was reorganized into the Research Center for Carbon Recycling and Energy.
The Evaluation Office and the International Planning Office were established.

October
The General Safety Management Center and the Center for Public Relations and Coordination were established.

2003 April
The Research and Development Center for Educational Facilities was reorganized into the Research Center for Educational Facilities.
The Gene Research Center, the Research Center for Experimental Biology, and the Radioisotope Research Center were integrated into the Center for Biological Resources and Informatics.
The Department of Precision Machinery Systems was renamed the Department of Mechano-Micro Engineering.

May
The Educational Planning Office was established.

September
The Center for Urban Earthquake Engineering was established. The Office of Industry Liaison was established.

2004 April
Tokyo Institute of Technology was reestablished as an independent administrative institution with the name **"National University Corporation Tokyo Institute of Technology."**
The Research Center for Quantum Effect Electronics was reorganized into the Quantum Nanoelectronics Research Center. The Planning Office and the Financial Management Office were established.

2005 April
The Graduate School of Innovation Management was established. The Technical High School attached to the School of Engineering was reorganized into the Tokyo Tech High School of Science and Technology.
The Center for Research in Advanced Financial Technology was reorganized.
The Large-scale Knowledge Resources Center, the Research Center for Nanometer-Scale Quantum Physics, the Bio-Frontier Research Center, the Center on Agent Based Social Systems Sciences, the Center for Molecular Science and Technology, the Research Center for the Evolving Earth and Planets, the Research Center for the Science of Institutional Management of Technology were established. Also established was the Collaboration Center for Design and Manufacturing.
Department of Information Processing and Department of Advanced Applied Electronics, both in the Interdisciplinary Graduate School of Science and Engineering, were integrated and reorganized into the Department of Electronics and Applied Physics and the new Department of Information Processing.

September
The Emerging Nanomaterial Research Center was established.

October
The Integrated Research Institute was established.

2006 January
The Center for Research into Innovative Nuclear Energy Systems was established.

April
The Center for Materials Design affiliated to the Materials and Structures Laboratory was reorganized into the Secure Materials Center affiliated to the Materials and Structures Laboratory. The Super-Mechano Systems R&D Center, the Student Services Center, and the Center for the Study of World Civilizations were established.

July
The Global Edge Institute was established.

December
The Center for Photonic Nano-Device Integrated Engineering was established.

2007 April
The new Admission Office was established. The Technical Department was established.
The Department of Civil Engineering was renamed the Department of Civil and Environmental Engineering.

October
The Information Infrastructure Management Office was established.
The Center for Public Relations and Coordination was reorganized into the Center for Public Information and the Center for University Communications and Coordination.
The Strategic Management Office was established.

November
The Frontier Collaborative Research Center, the 80th Anniversary Center for Research Admission Office, the Venture Business Laboratory and the Incubation Center were merged into the new Frontier Research Center.

2008 April
The Secure Device Research Center affiliated to the Precision and Intelligence Laboratory was established.
The Photovoltaics Research Center was established.
The Inter-departmental Organization for Informatics was established.

May
The Asia-Africa Biology Research Center was established.

July
The Gender Equality Center was established. The Productive Leader Incubation Platform was established.

October
The Office for the 130th Anniversary Project was established.

November
The Center for CompView Research and Education was established.

2009 March
The Tokyo Tech Front was established.

April
The Multidisciplinary Research Center For Energy Science was established.
The Career Advancement Professional School was established.
The Tokyo Tech Archive Initiative was established.

May
The University Management Center was established.

August
The Research Project Support Center was established.

November
The Multidisciplinary Research Center For Energy Science was reorganized into the Inter-departmental Organization for Environment and Energy.

HISTORY

2010 April
The Microsystem Research Center was reorganized into the Photonics Integration System Research Center affiliated to the Precision and Intelligence Laboratory.
The International Nuclear Research Cooperation Center affiliated to the Research Laboratory for Nuclear Reactors was established.
The Imaging Science and Engineering Laboratory affiliated to the Graduate School of Science and Engineering was reorganized into the Imaging Science and Engineering Laboratory.
The Frontier Research Center was reorganized.
The Solutions Research Laboratory was established.
The Research Center for Carbon Recycling and Energy (Research and Service Centers) was reorganized into the Research Center for Carbon Recycling and Energy (Common Facilities).
The Advanced Education Research Center was established.
The Osmotic Power Research Center was established.
Conclusion of operations at the Large-scale Knowledge Resources Center.
The Integrated Research Institute was reorganized.

October
The Energy Conservation Promotion Office was established.

November
The Research Center for Low Temperature Physics (Research and Service Centers) was reorganized into The Research Center for Low Temperature Physics (Common Facilities).
The Organization for Life Design and Engineering was established.
Conclusion of operations at the Strategic Management Office.

2011 January
The Center for Liberal Arts was established.

Development of the Institute

(As of May 1, 2009)

	School		Graduate School				Land (m^2)	Building (m^2)	Number of Books (Volumes)
			Master's Course		Doctoral Course				
	Admission	Number of Graduates	Admission	Number of Degrees Conferred	Admission	Number of Degrees Conferred			
1929	150	0						3,834	21,525
1940	252	178					262,902	54,542	51,848
1945	400	358					293,345	56,383	72,555
1950	*460 300	392					312,211	58,499	92,925
1955	355	335	135	37	68		309,514	71,114	111,173
1960	505	387	145	44	73	12	309,484	78,581	145,107
1965	705	590	213	205	87	37	308,737	111,166	200,208
1970	895	773	294	348	149	72	484,515	146,473	284,677
1975	774	790	617	512	205	68	510,683	185,309	360,499
1980	774	775	643	613	248	91	529,515	245,791	444,765
1985	836	776	665	694	250	86	531,848	261,968	538,884
1990	1,182	1,107	720	840	250	139	533,242	277,672	647,330
1995	1,317	1,282	908	1,154	331	253	535,239	319,404	750,172
2000	1,068	1,237	1,290	1,488	534	349	534,728	362,769	858,316
2001	1,068	1,188	1,290	1,497	534	346	534,728	368,935	871,089
2002	1,068	1,243	1,290	1,538	534	291	534,728	396,634	886,484
2003	1,068	1,156	1,291	1,559	535	357	534,728	419,728	879,397
2004	1,068	1,113	1,292	1,642	536	313	566,366	428,653	891,753
2005	1,068	1,175	1,322(30)	1,633	543	382	566,366	428,492	904,293

2007	1,068	1,161	1,322(30)	1,677	543	387	566,544	430,171	774,552
2008	1,068	1,168	1,322(30)	1,648	543	387	566,605	439,433	774,712
2009	1,068	1,128	1,327(35)	1,546	546	384	566,605	447,714	780,421

Note: 1.The figure marked with * represents the number of students admitted under the old education system.
2.Figure given in parentheses represent the number of Professional Master's Course.

MEMBERS OF THE BOARD, COMMITTEES, AND COUNCIL

As of April 1, 2011

The Board

IGA, Kenichi	President
OKURA, Ichiro	Executive Vice President for Planning
MUTA, Hiromitsu	Executive Vice President for Finance
SAITO, Akio	Executive Vice President for Education
IZAWA, Tatsuo	Executive Vice President for Research
SHIMIZU, Yasutaka	Auditor
SUZUKI, Motoyuki	Auditor

Vice President

TSUKAMOTO, Mamiko	Vice President for Human Rights

Management Committee

ARIKAWA, Yoshiko	President, Japan Women's University
KUDO, Tomonori	Auditor, Tokyo Denki University
SHOYAMA, Etsuhiko	Chairman Emeritus, Hitachi, Ltd. President, Tokyo Tech Alumni Association (Kuramae Kougyoukai)
TAKI, Hisao	Chairman, Gourmet Navigator Inc
DOI, Miwako	Chief Fellow, Corporate Research & Development Center, Toshiba Corporation
NAKAJIMA, Kunio	President, Japan Chemical Innovation and Inspection Institute
HASHIMOTO, Genichi	Former President, NHK(Japan Broadcasting Corporation)
FUJISHIMA, Akira	President, Tokyo University of Science
IGA, Kenichi	President
OKURA, Ichiro	Executive Vice President for Planning
MUTA, Hiromitsu	Executive Vice President for Finance
SAITO, Akio	Executive Vice President for Education
IZAWA, Tatsuo	Executive Vice President for Research
HIROSE, Shigehisa	Professor, Graduate School of Bioscience and Biotechnology
ENKAWA, Takao	Professor, Graduate School of Decision Science and Technology
YAMADA, Michio	Director-General

Education and Research Council

IGA, Kenichi	President
OKURA, Ichiro	Executive Vice President for Planning
MUTA, Hiromitsu	Executive Vice President for Finance
SAITO, Akio	Executive Vice President for Education
IZAWA, Tatsuo	Executive Vice President for Research
SUZUKI, Keisuke	Dean, Graduate School of Science Dean, School of Science
OKAZAKI, Ken	Dean, Graduate School of Engineering Dean, School of Engineering
SEKINE, Mitsuo	Dean, Graduate School of Bioscience and Biotechnology Dean, School of Bioscience and Biotechnology
HARASHINA, Sachihiko	Dean, Interdisciplinary Graduate School of Science and Engineering
KOJIMA, Sadayoshi	Dean, Graduate School of Information Science and Engineering
IIJIMA, Junichi	Dean, Graduate School of Decision Science and Technology
TANABE, Koji	Acting Director, Graduate School of Innovation Management
TATSUMI, Takashi	Director, Chemical Resources Laboratory
HOUJOH, Haruo	Director, Precision and Intelligence Laboratory
OKADA, Kiyoshi	Director, Materials and Structures Laboratory
ARITOMI, Masanori	Director, Research Laboratory for Nuclear Reactors
NISHIMORI, Hidetoshi	Professor, Graduate School of Science
TAKAHASHI, Eiichi	Professor, Graduate School of Science
NIWA, Junichiro	Professor, Graduate School of Engineering
UYEMATSU, Tomohiko	Professor, Graduate School of Engineering
KITAMURA, Naomi	Professor, Graduate School of Bioscience and Biotechnology
NAKAMURA, Satoshi	Professor, Graduate School of Bioscience and Biotechnology
KOSUGI, Yukio	Professor, Interdisciplinary Graduate School of Science and Engineering
ODAWARA, Osamu	Professor, Interdisciplinary Graduate School of Science and Engineering
YONEZAKI, Naoki	Professor, Graduate School of Information Science and Engineering
KIMURA, Koji	Professor, Graduate School of Information Science and Engineering
NAKAGAWA, Masanori	Professor, Graduate School of Decision Science and Technology
KUWAKO,Toshio	Professor, Graduate School of Decision Science and Technology

President Nomination Committee

ARIKAWA, Yoshiko	President, Japan Women's University
SHOYAMA, Etsuhiko	Chairman Emeritus, Hitachi, Ltd. President, Tokyo Tech Alumni Association (Kuramae Kougyoukai)
TAKI, Hisao	Chairman, Gourmet Navigator Inc
NAKAJIMA, Kunio	President, Japan Chemical Innovation and Inspection Institute
HASHIMOTO, Genichi	Former President, NHK(Japan Broadcasting Corporation)
NISHIMORI, Hidetoshi	Professor, Graduate School of Science
UYEMATSU, Tomohiko	Professor, Graduate School of Engineering
HARASHINA, Sachihiko	Dean, Interdisciplinary Graduate School of Science and Engineering
KOJIMA, Sadayoshi	Dean, Graduate School of Information Science and Engineering
HOUJOH, Haruo	Director, Precision and Intelligence Laboratory
IZAWA, Tatsuo	Executive Vice President for Research

Deans & Directors

SUZUKI, Keisuke	Dean, Graduate School of Science and Engineering Dean, Graduate School of Science Dean, School of Science
OKAZAKI, Ken	Dean, Graduate School of Engineering Dean, School of Engineering
SEKINE, Mitsuo	Dean, Graduate School of Bioscience and Biotechnology Dean, School of Bioscience and Biotechnology
HARASHINA, Sachihiko	Dean, Interdisciplinary Graduate School of Science and Engineering
KOJIMA, Sadayoshi	Dean, Graduate School of Information Science and Engineering
IIJIMA, Junichi	Dean, Graduate School of Decision Science and Technology
TANABE, Koji	Acting Director, Graduate School of Innovation Management
TATSUMI, Takashi	Director, Chemical Resources Laboratory
HOUJOH, Haruo	Director, Precision and Intelligence Laboratory
OKADA, Kiyoshi	Director, Materials and Structures Laboratory
ARITOMI, Masanori	Director, Research Laboratory for Nuclear Reactors
SAKAI, Yoshinori	Director, Institute Library
OTSUKI, Nobuaki	Principal, Tokyo Tech High School of Science and Technology

Administration Bureau

YAMADA, Michio	Director-General
SHIMIZU, Syuichi	Director, General Affairs Department
KUBO, Susumu	Director, Finance Department
ARUGA, Osamu	Director, International Affairs Department
EZAWA, Harumasa	Director, Student Service Department
MANAGO, Hiroshi	Director, Research Information Department
SATOU, Masahiro	Director, Facilities Department
OGATA, Kouichi	Director, Suzukakedai Administration Office

MAP

Ookayama Campus: Ookayama Station of Tokyu Oimachi Line/Tokyu Meguro Line
About 45 minutes from Haneda Airport, About 100 minutes from Narita Airport, About 30 minutes from Tokyo Station

Suzukakedai Campus : Suzukakedai Station of Tokyu Den'entoshi Line
About 70 minutes from Haneda Airport, About 130 minutes from Narita Airport, About 55 minutes from Tokyo Station

Tamachi Campus : Tamachi Station of JR Yamanote Line/Keihin-Tohoku Line
About 25 minutes from Haneda Airport, About 90 minutes from Narita Airport, About 10 minutes from Tokyo Station
