TOTAL Tokyo Tech Academy for Leadership

"Future Foresight" Workshop (5 days)

Facilitator: M. Kobayashi・S. Matsuki・T. Hino・K. Awata/ Future Design Lab., The Japan Research Institute, LTD.

✓ "Future Foresight" has been gathering a lot of attention as the promising methodology for generating "INNOVATIONS" together with "Design Thinking". "Future Foresight" is a methodology by putting priority on "BACKCAST" type of approach by considering paths and/or scenario after considering several future possibilities, which may be different from "FORECAST".

✓ The theme of this year is Future of "Regional Infrastructure". During workshop, you will design future of 10-15 years later by putting priority on future insights with "SCANNNING" and "FORCED IDEA GENERATION" method.
