"Future Foresight" Workshop (Series of classes)

Facilitator: Awata・Matsuki・Kinoshita・Kuratani・Fujimoto/Future Design Lab., The Japan Research Institute, LTD.

✓ "Future Foresight" has been gathering a lot of attention as the promising methodology for generating "INNOVATIONS" together with "Design Thinking". "Future Foresight" is a methodology by putting priority on "BACKCAST" type of approach by considering paths and/or scenario after considering several future possibilities, which may be different from "FORECAST".

✓ The theme of this year is Future of "well-being way of life". During workshop, you will design future of 10-15 years later by putting priority on future insights with "SCANNNING" and "FORCED IDEA GENERATION" method.
