

"EGAKU" Workshop

Facilitator: K. Hasebe/CEO, Art Producer, White Ship Inc.

"EGAKU" fosters creativity and imagination from scratch, diverse ways of seeing and verbalizing, and awareness of "unconscious bias (unconscious assumptions)" through art appreciation and creation. The objective of this workshop is to acquire the basic skills to creatively carve out the future in one's own way while collaborating with diverse others in this age of uncertainty, by strengthening "creative thinking" and "creative communication" skills.

The workshop has been attended by numerous entrepreneurs and corporate leaders, and has been used for human resource development and entrepreneurship development I over 200 companies, government offices, and universities.

Although any of Tokyo Tech students, graduates or undergraduates, can apply the program, we will stop accepting applications once all the seats are taken.
