# The evolution of virtual space (Digital Twin) and new lifestyles

Digital technology is not only improving the efficiency of manufacturing factories and offices, but is also revolutionizing the lifestyles and work styles of the people who work there. We will introduce the latest technology trends that will contribute to the realization of a super smart society, and as a place to gain new insights, we will invite experts in various fields, such as digital twin, AI technology, and AR/VR technology, to give lectures and discuss the prospects for a super smart society.

## Program

13:00	Opening remarks (SAKAGUCHI Kei The Cordinator / Prof. School of Engineering)	
13:10	<b>Keynote Speech</b> <b>Microsoft Technology for Super Smart Society</b>	
14:50	SAKAKIBARA Akira Chief Technology Officer, Microsoft Japan Co., Ltd. President, Microsoft Development Co., Ltd.	
13:50	<b>Lecture1</b> <b>NTT Group's Creation of Urban Communities</b>
