

Call for Participants: The 7th AEARU Environmental Workshop

The 7th AEARU Environmental Workshop will be hosted by Tsinghua University. Tokyo Tech researchers and graduate students who would like to participate are invited to submit applications. The workshop is a session of [the 13th International Conference on Waste Management and Technology \(ICWMT\)](#) held March 21-24, 2018. The focus is on "Resource Flow and Its Environmental Impact." For details, please refer to pages 2 and 3 of this announcement.

Date: Saturday, March 24, 2018

Venue: Beijing, China

Eligibility: Tokyo Tech researchers, post-docs, and graduate students

Application Method for the Poster Presentations :

① Send the following documents directly to dsn17@mails.tsinghua.edu.cn by **February 10, 2017**.

- Application Form (Researcher) or Application Form (Student)
- Abstract of your presentation (A4, 1- page)
- Full paper

Please carbon-copy Tokyo Tech's International Cooperation Division kokuren.aearu@jim.titech.ac.jp in your email.

② Students are required to obtain their supervisor's permission before applying.

*Download the application form, abstract and full-paper templates from <https://www.titech.ac.jp/enrolled/abroad/programs/relationship.html#aearu>

The deadline for workshop participants differs from that indicated on the ICWMT website. All submitted abstracts will be reviewed. Selected workshop participants will make presentations of 20 minutes (researchers) or 10-15 minutes (students). Certificates may well be given to students and post-docs by votes of professors.

Notification of Acceptance:

Tsinghua University will notify applicants of the selection results.

Expenses:

Tsinghua University will cover registration fees, meals, and a two-night hotel stay for up to 3 participants from Tokyo Tech. In addition, a discount will be available to workshop participants who wish to register for the full ICWMT conference. Participants are responsible for airfare, insurance, and other personal expenses. For more details on registration fees for workshop and conference, please refer the information on pages 2 and 3.

Inquiries: International Cooperation Division, Tokyo Tech

Call for Participants

The 7th AEARU Environmental Workshop

March 24th 2018

School of Environment, Tsinghua University, Beijing, China

Preface to AEARU:

The Association of East Asian Research Universities (AEARU) is a regional organization founded in January 1996, with the goals of forming a forum for the presidents of leading research-oriented universities in East Asia and of carrying out mutual exchanges between the major universities in the region. The AEARU membership is composed of the presidents of the leading universities in five regions of East Asia: the Chinese Mainland, Japan, Korea, Hong Kong, and Taiwan. Since its foundation in 1996, a total of 18 universities from these regions have become members of the association. The member universities include;

- Fudan University
- Hong Kong University of Science and Technology
- Korea Advanced Institute of Science and Technology
- Kyoto University
- Nanjing University
- Osaka University
- Peking University
- Pohang University of Science and Technology
- Seoul National University
- Taiwan University
- Tohoku University
- Tokyo Institute of Technology
- Tsinghua University - Beijing
- Tsing Hua University - Hsinchu
- University of Science and Technology of China
- University of Tokyo
- University of Tsukuba
- Yonsei University

AEARU's activities include workshops, student summer camps, student physical competitions, and various types of international symposia. These activities are held throughout the year to promote mutual exchanges of ideas and information and to develop close bonds between the member universities.

Theme of the Workshop: [Resource Flow and Its Environmental Impact](#)

Rationale to the Workshop:

Resource supply from earth mineral is fundamentally crucial to maintain the sustainability for modern society from basic infrastructure to high-tech industries. Resource has been dramatically flowing from underground to aboveground owing to rapid industrialization and urbanization. Thus, Peak mineral is coming to many underground resources. Meanwhile, many severe environmental impacts have been come out associated with the growing resource utilization. These are the increasing challenge for many countries or regions, including the East Asia. To find the solutions (technology, policy, regulation, and engineering) to the problems is very urgent from academic to government.

Therefore, this workshop will provide an excellent platform to discuss innovative solutions for environmental issues related with resource streams which will be a contributing factor for sustainable development framework and green future.

This workshop is the important session of the 13th International Conference on Waste Management and Technology (ICWMT) in March 21st-24th, 2018 (<http://2018.icwmt.org>). About 100 persons will attend this workshop. ICWMT is an important platform for specialists and officials to discuss scientific problems related to waste management, resource management, circular economy, sustainability development, exchange experiences, and to look for innovative solutions.

Conference Date: March 24th, 2018

Venue: Beijing, China

Language: English

Time and Place for Registration:

March 21-23, 2018; Beijing Yu Quan Royal Garden International Hotel, Beijing, China

Fees:

(1) In case of limit funding, no more than **3** attendees for each member university to attend the workshop. The fee for registration, meal, and two-night hotel will be covered by Tsinghua University.

If you want to attend the whole conference, please consider

	Before Feb. 1, 2018	After Feb. 1, 2018	Student
	Common attendee	Common attendee	
Overseas	300 USD	400 USD	200 USD
Domestic	1500 RMB	2000 RMB	1000 RMB
Registration Fee covering ICWMT conference materials, lunch, and welcome dinner.
