◆ Introduction

Procedures for Studying Abroad and Other Overseas Travel

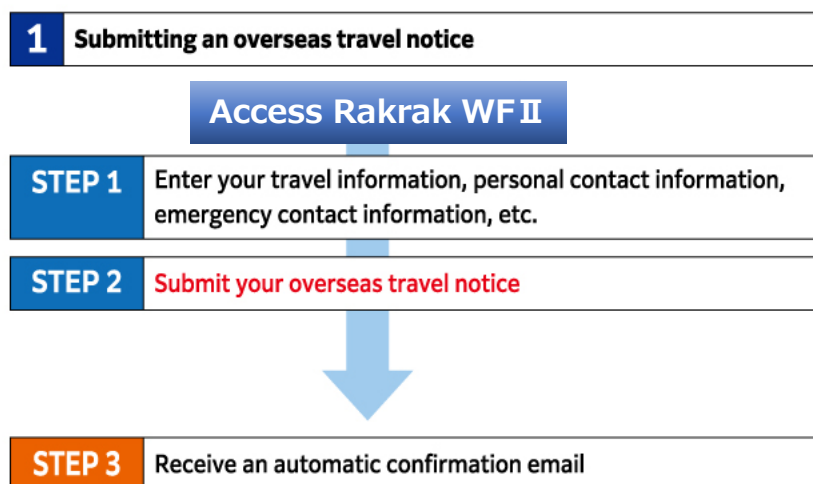

Institute of Science Tokyo (Science Tokyo) requires all students who will be traveling abroad to complete overseas travel procedures before they go. These procedures are designed to ensure that Tokyo Tech can accurately monitor the status of students studying abroad as well as their whereabouts in case of an emergency. Please take care of these procedures via the Science Tokyo electronic application system (RakrakWF II).

The system lets you submit the four types of documents required for the overseas travel procedures for studying abroad and other overseas travel: Overseas Travel Notice, Request to Study Abroad, Departure Notice, and Study Abroad Report. Which documents you need to submit depends on factors such as the length and purpose of your overseas travel. The following chart shows which documents you must submit and when, and the workflow for preparing documents in the system.

The process for preparing, submitting and getting approval of each document is provided from the next page through page 5. Please refer to the instructions for preparing each document on page 6 and beyond to complete the required overseas travel procedures online. If you need any support for the application, please consult the helpdesk (hakenryugaku@jim.titech.ac.jp).

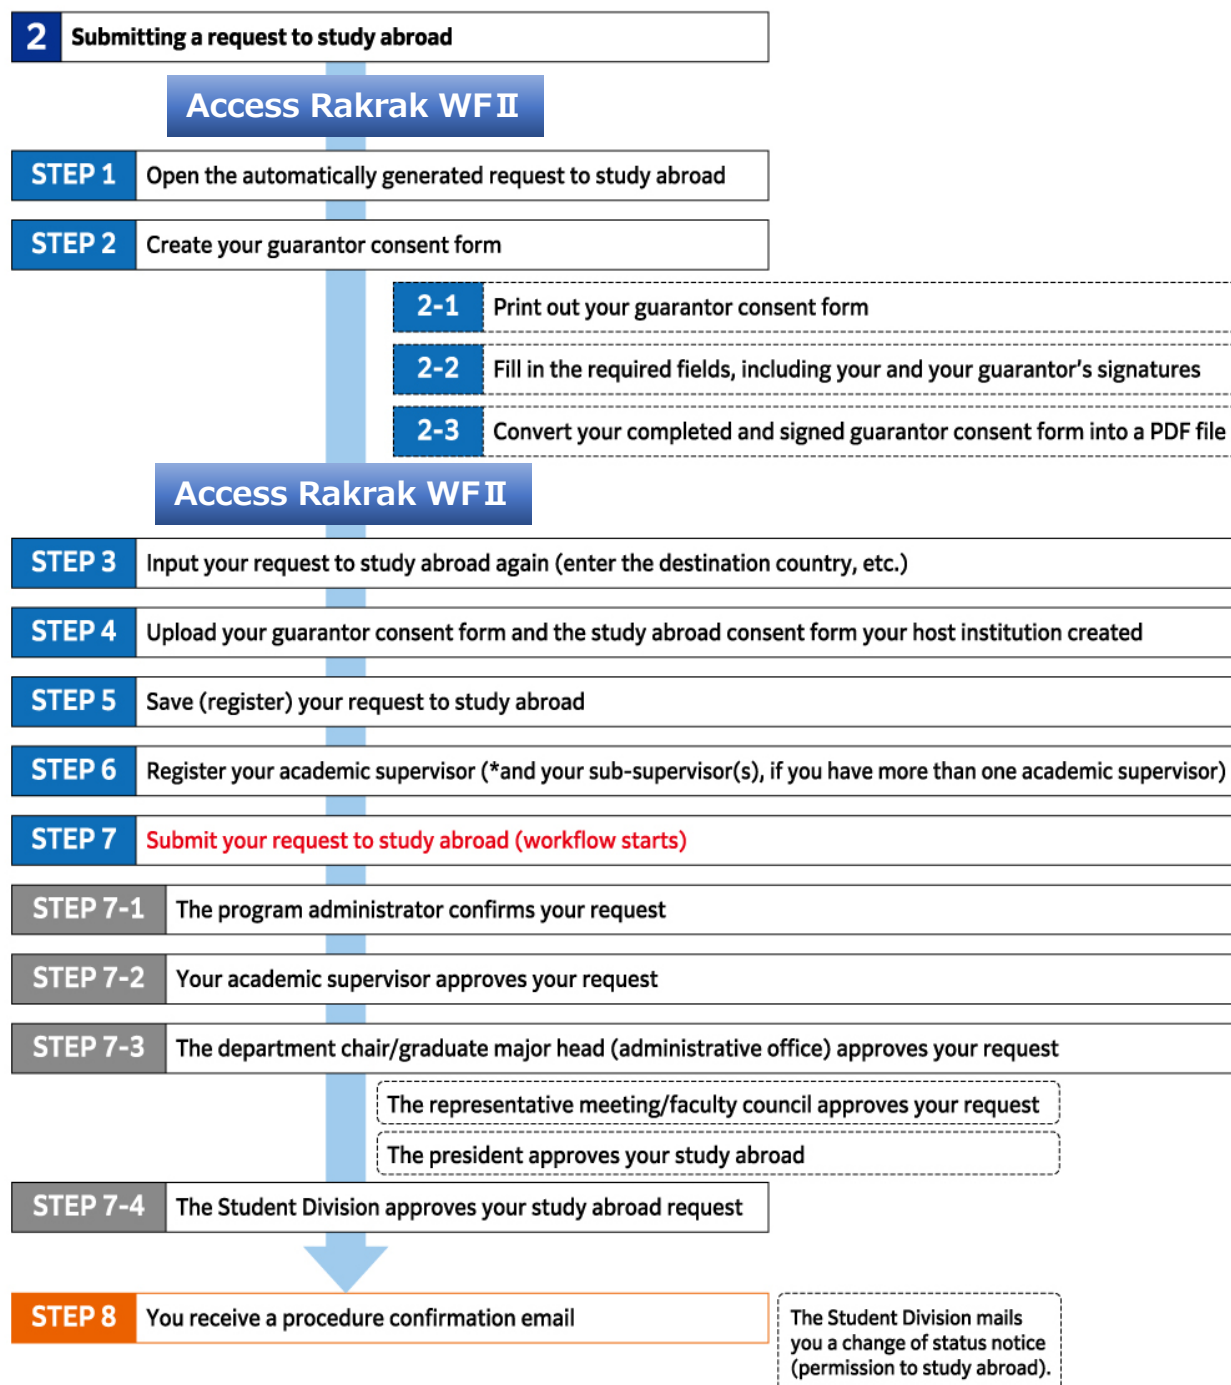

1. Overseas Travel Notice - Submission Procedure

★ Scope of sharing and use of the information in Overseas Travel Notice★

When you submit an Overseas Travel Notice, the information is sent to your academic supervisor, chair of first-year studies/department chair or graduate major head, the administrative office for your department/graduate major, and the Education Planning Department's Student Support Division. The data will be stored in the Student Services Department's Global Education Division folder. Information that you submit will be used for crisis management in the event of a student emergency as well as in an anonymized fashion for Science Tokyo's various surveys and statistics. Your information will not be used for any other purposes.

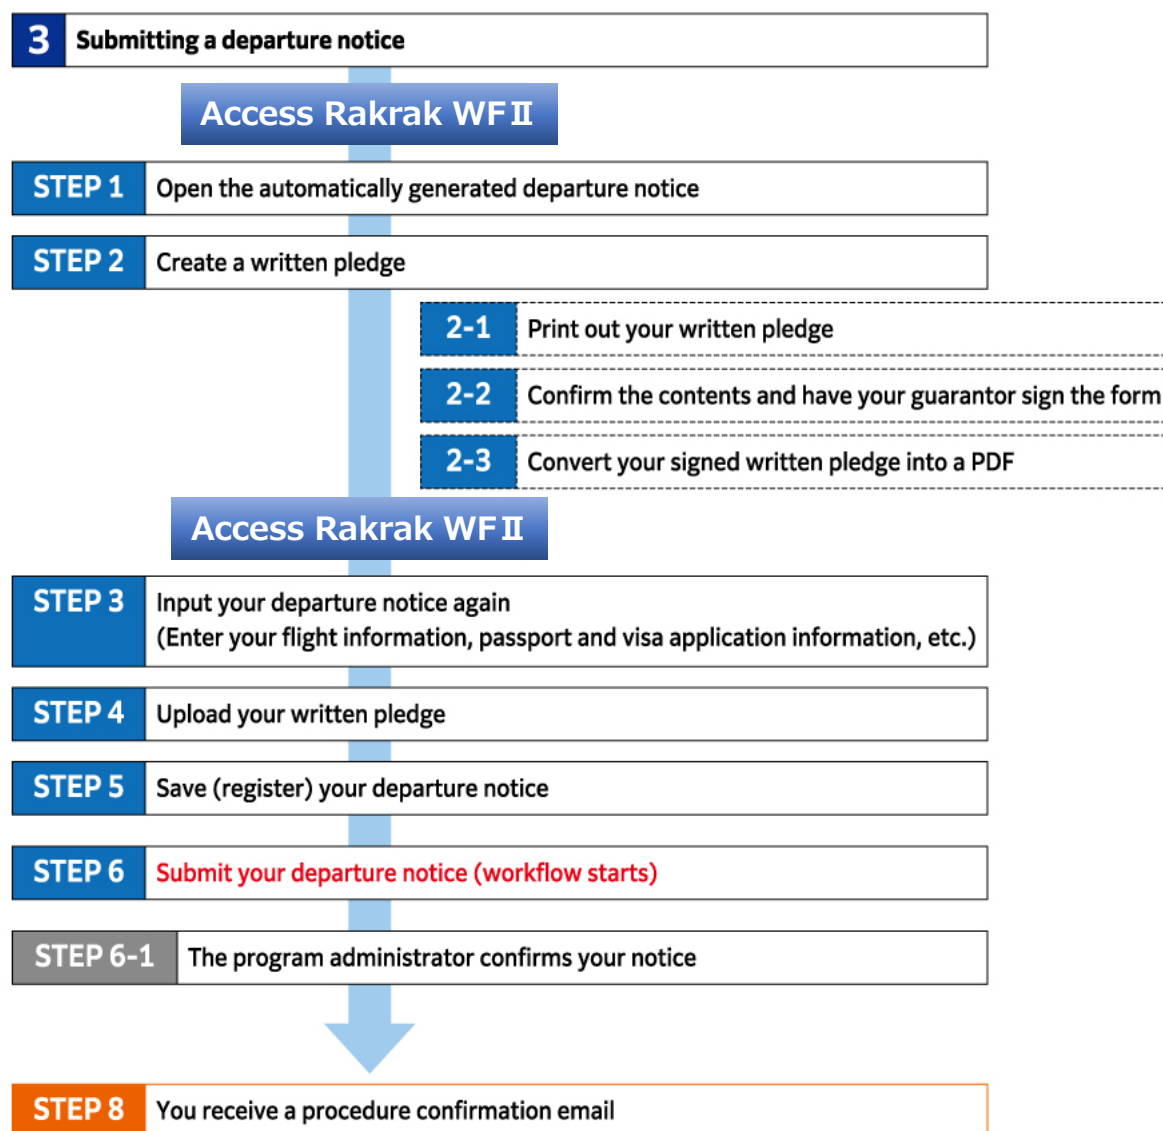

2. Request to Study Abroad - Submission Procedure

★Scope of sharing and use of the information in Requests to Study Abroad★

When you submit a Request to Study Abroad, the information is shared with your academic supervisor, your chair of first-year studies/department chair or graduate major head, the Education Planning Department's Student Division (all of which are responsible for approving the request), the administrative office for your department/graduate major, and the study abroad program administrator (if participating in a Science Tokyo program). The information you submit will be used to process your change of status ("enrolled" → "studying abroad"). It will not be used for any other purposes.

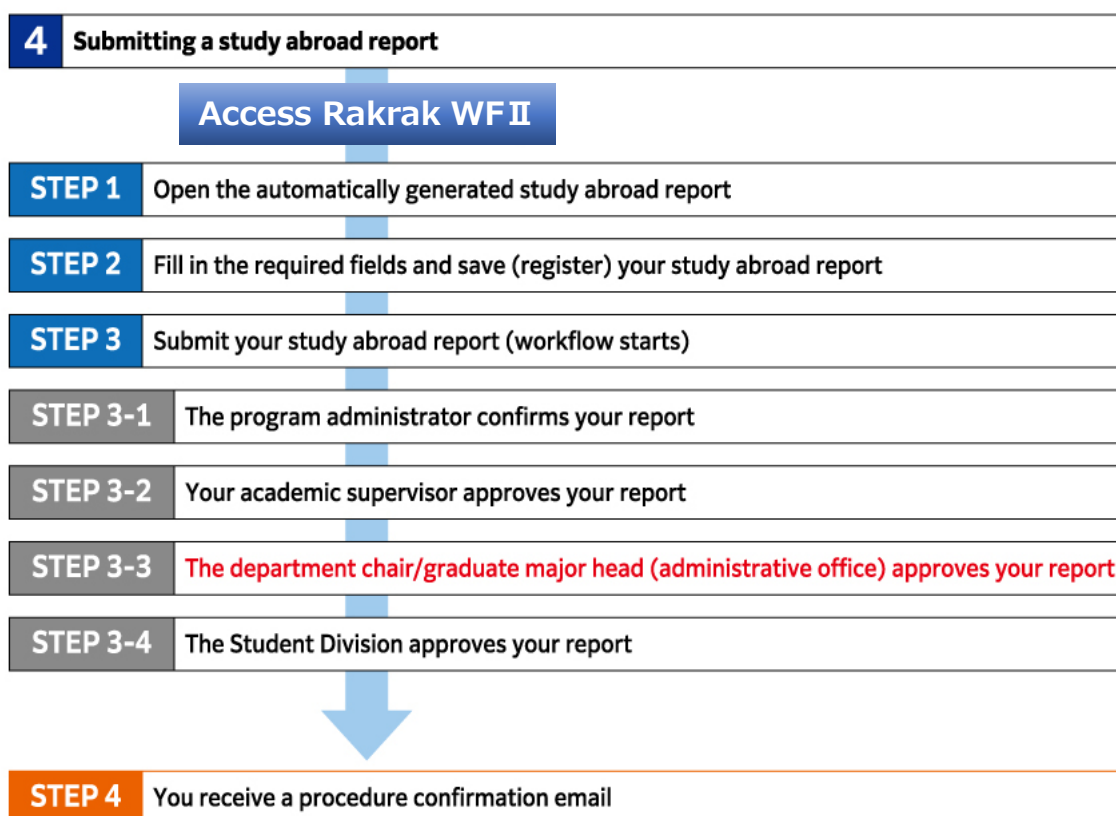

3. Departure Notice - Submission Procedure

★Scope of sharing and use of the information in Departure Notice★

When you submit a Departure Notice, only the study abroad program administrator (who is responsible for confirming the notice) will see the information, and only if you are participating in a Science Tokyo program. The information will be used for crisis management in case of a student emergency. It will not be used for any other purposes.

4. Study Abroad Report - Submission Procedure

※STEP1

If there is no automatically generated ‘Study Abroad Report’, you can create a new one. In this case, the data entered in the ‘Request to Study Abroad’ is not taken over. Please enter new basic information etc.

★Scope of sharing and use of the information in Study Abroad Report★

When you submit a Study Abroad Report, the information is shared with your academic supervisor, chair of first-year studies/department chair or graduate major head, the Education Planning Department’s Student Division (all of which are responsible for approving the request), the administrative office for your department/graduate major, and the study abroad program administrator (if participating in a Science Tokyo program).

The information you submit will be used to track your activities and process your status change (“studying abroad” → “enrolled”). It will not be used for any other purposes.
