Tokyo Institute of Technology COVID-19 Task Force

### Visitors to Tokyo Tech Campuses (Updated on April 1)

In an effort to help prevent the spread of COVID-19, Tokyo Institute of Technology (“Tokyo Tech”) is currently taking the below measures when accepting visitors to campuses, in accordance with the Tokyo Tech Response to COVID-19, March 19, 2021 ver. (“Tokyo Tech Response”). We greatly appreciate your understanding and cooperation.

#### Our response when accepting visitors

When accepting visitors or holding events involving non-Tokyo Tech members, appropriate preventive measures must be taken corresponding to the respective alert levels for “11. Gatherings and Events” and “12. Visitors to Tokyo Tech campuses” specified in the Tokyo Tech Response.

#### To all visitors

- Make sure you do not have any symptoms of sickness when visiting.
- Please avoid coming in large groups.
- Make sure to take infection prevention measures, including wearing a face mask, washing hands, and using sanitizer.
- Make sure to wear a face mask throughout your visit as well as while taking public transportation. Those visiting as a group are expected to avoid conversations as much as possible.
- Those coming to view campuses prior to admission, etc. are not allowed to enter buildings on Tokyo Tech premises.
- Tokyo Tech host faculty/staff members will be keeping a record of visitors who do not come for day-to-day or regular tasks at Tokyo Tech, and when visits could include a certain amount of face-to-face contact with Tokyo Tech members (generally within a distance of approx. 1 meter for at least 15 minutes). We ask for your kind understanding regarding this procedure.
- Tokyo Tech encourages its faculty and staff members to install the government-offered COVID-19 Contact-Confirming Application (“COCOA” on their smartphones. We also ask our visitors to participate in this effort.
