

DOING ART WITH THE ARTIST

Self Portrait
Vincent van Gogh (1853-1890)

THE HUMAN FACE

Portrait and Self-Portrait

Rembrandt, van Gogh, Picasso - all generations of artists have been fascinated by the human face. The face is the most individual, the deepest and the most beautiful expression of our existence as human beings.

How do we perceive a face? And how can we transform our impression into art?

The purpose of this seminar is to gain new knowledge and inspiration through the arts and to find one's own individual ways of creative expression.
