

## Device and internet connection requirements for using Zoom

- Devices for using Zoom

- PCs with Windows, Mac or Linux operating system.

[\(System requirements, by Zoom\)](#)

Note: We highly recommend the use of headsets.

- Cell phones or tablets with iOS or Android operating systems.

[\(System requirements, by Zoom\)](#)

- Internet for using Zoom

You will need internet connection, without data caps, faster than 600kbps for uploading and 1.2Mbps for downloading. There are different types of connections:

- Cable: Fiber-optic cable, cable TV lines, ADSL cable, etc.
- Mobile: Portable Wi-Fi routers, tethering using cell phones, etc.

Mobile networks (4G, LTE, WiMAX, AXGP, etc.)

Examples: UQ WiMAX2+, Softbank Air, etc.

Note: Be careful of internet plans with speed reduction after you exceed a certain data usage. One lecture of 100 minutes takes around 500 - 800MB.
