

Application Guideline for Seasonal Programs offered by Science Tokyo Partner Universities

Students participating in summer/winter programs offered by Science Tokyo's partner universities are supported by scholarships, procedural assistance and credits. The timing and duration vary according to the partner universities. The program includes coursework and research projects.

Students must consult and obtain the consent of their family, guarantor and academic advisor before participating in the program.

This application guideline is only for Science & Engineering students. Medical & Dental students who would like to apply for this program should contact Yushima Study Abroad Support Group (Email: ossu@ml.tmd.ac.jp)

1. Outline This offer provides scholarships, procedural support and credits to participants in summer/winter programs organized by partner universities. The applicant (participant) is responsible for applying to the program, arranging airline tickets and accommodation, and completing the travel procedures.
2. Program Period May 2025 -
3. Number of people to be accepted The number of applicants for each course should refer to the Course Details. The total number of applicants for the scholarship is about 20.
4. Target courses The courses 1-12 are available in the 1st call for applications starting from January 2025.

*The applications for courses from 13-15 will be opened later.
*Applicants must check the curriculum in his/her school/department and make sure not to miss the courses they should take.
*Applicants who obtained nomination from Science Tokyo are able to participate without paying tuition for program number 2 to 7. To obtain nomination, applicants must have an interview. Details are in "10. Internal Selection."

The details of each course should be referred to Course Details. The latest information should be obtained through program website.

- ① Leibniz University Hannover (Germany) Summer Engineering Research Program
- ② Technical University of Denmark (Denmark) DTU International Summer University
- ③ The Hong Kong University of Science and Technology (China) HKUST Summer School, HKUST Summer UG Research Program
- ④ Linköping University (Sweden) Summer Academy
- ⑤ Grenoble Institute of Engineering (France) Ginsen Summer School
- ⑥ École nationale des ponts et chaussées (France) English Taught Exchange Programmes

- ⑦ Nanyang Technological University (Singapore) GEM Trailblazer Summer
- ⑧ University of California, Berkeley (US) Summer Sessions※
- ⑨ RWTH Aachen University (Germany) Summer Schools
- ⑩ University of Oxford (UK) Exeter College Summer Programme
- ⑪ University College London (UK) UCL Summer School
- ⑫ Technische Universität Berlin (Germany) Summer School on Campus
- ⑬ University of Trento (Italy) Winter School SustANGE
- ⑭ Swiss Federal Institute of Technology, Zurich (Switzerland) ETH Student Summer Research Fellowship
- ⑮ Polytechnique Montréal (Canada) Research Internship Program

5. Details of Support

(1) Granting of credits “International Experiences” The procedure for obtaining credits will be explained in an orientation session.

(2) Scholarship

The program duration (not including the time required for departure, travel, and return) is divided into 31-day periods, and the following amounts are provided per grant period. For the requirement, please see the “6. Eligibility.”

- 80,000yen: Leibniz University Hannover, Technical University of Denmark, Linköping University, Grenoble Institute of Engineering, École nationale des ponts et chaussées, University of California, Berkeley, RWTH Aachen University, University of Oxford, Technische Universität Berlin, University of Trento, Polytechnique Montréal
- 70,000yen: The Hong Kong University of Science and Technology
- 100,000 yen: University College London, Nanyang Technological University

In case the participants receive the scholarship from Polytechnique Montréal, they are not eligible for the scholarship from Science Tokyo.

(3) Procedural Support

Students who have difficulties in applying from program website can ask for assistance to the Global Education Division.

6. Eligibility

- 1) Bachelor's and master's degree students who are enrolled in a regular course at Science Tokyo at the time of application and program duration.
- 2) Students who will return to Science Tokyo after their study abroad period to continue their studies or obtain a degree.
- 3) Students who meet the requirements of each program, such as year of study, affiliation, and field of specialization.
- 4) Applicants must have a level of English proficiency (TOEIC score of 550, TOEFL ITP score of 490, or TOEFL iBT score of 57) at the minimum in order to take classes and live in the host country using English. However, if the participating program has a higher language requirement, the student must meet that requirement.

*1 International students are not allowed to study in their home countries.

*2 Those who will graduate from an undergraduate program or complete a graduate program in September 2025 and participate in a program that ends in August or later

will not be eligible for scholarships or credits, but they will be eligible for procedural support and orientation.

*3 Calculation method of the grading scale (the requirement for scholarship): The grades of the previous year are converted into "grading points" according to the following table and calculated by applying the formula (rounded off to two decimal places).

Grade Point Conversion Chart

Grade Points	100 ~ 80	79 ~ 70	69 ~ 60	59 or below
Evaluation Point	3	2	1	0

Calculation Formula

$$\frac{(\text{Number of credits for evaluation point } 3 \times 3) + (\text{Number of credits for evaluation point } 2 \times 2) + (\text{Number of credits for evaluation point } 1 \times 1) + (\text{Number of credits for evaluation point } 0 \times 0)}{\text{Total Credits Registered}}$$

7. Documents to be submitted

- 1) Application form
- 2) A copy of the transcript of the language examination (TOEIC, TOEFL, or other document certifying English proficiency) If you do not have a transcript of the language examination, please contact Global Education Division.
- 3) A copy of an e-mail or acceptance letter showing that you have already applied to the program, except for programs that require nomination from Science Tokyo.

8. Application Deadline

The application deadline to Global Education Division is as follows:

January 29, 2025: Hong Kong University of Science and Technology

February 26, 2025: Technical University of Denmark, Linköping University, Grenoble Institute of Engineering, École nationale des ponts et chaussées, Nanyang Technological University

March 6, 2025: Leibniz University Hannover and other programs starting in May

April 8, 2025: Programs starting in June other than those listed above

May 8, 2025: Programs starting in July other than those listed above

June 9, 2025: Programs starting in August other than those listed above

Approval (signature and seal on the application form) by an academic advisor (1st-3rd year of undergraduates) and academic supervisor (4th year of bachelor's program or above) is required to apply. Please prepare your application well in advance.

The above submission deadlines are the application deadlines for Science Tokyo. Please refer to the website of each partner institution for application deadlines and documents to be submitted. International students should check the necessary information for visa themselves.

Applications with incomplete documents or submitted after the above deadlines will not be accepted.

9. Application

How to apply: Upload your application documents from the link below. Application documents should be combined into one PDF file.

<https://science-tokyo.app.box.com/f/67cd614da41b4f49b130915960c83acf>

10. Internal
Selection

Documents Screening

However, face-to-face interviews will be held at Ookayama Campus for the following programs.

[February 3, 14:00-15:00] Hong Kong University of Science and Technology

[March 4, 13:00-15:00] Technical University of Denmark, Linköping University, Grenoble Institute of Engineering, École nationale des ponts et chaussées, Nanyang Technological University

Applicants will be notified of the location and interview time.

11. Others

- 1) After being selected to participate in the program, participants are required to attend an orientation session.
- 2) Be sure to purchase overseas travel insurance (including risk management services) designated by Science Tokyo. The procedure will be explained in the orientation session.
- 3) After participating in the program, if requested by the Global Education Division, you are expected to make presentations at study abroad events, publicize your study abroad experience, and cooperate in various surveys and questionnaires regarding the results of your study abroad experience as much as possible.
- 4) After returning to Japan, the student must submit a written report and other necessary documents to the Global Education Division, and participate in a debriefing session to receive credit.

12. Contact

Global Education Division (Taki Plaza B1F, Ookayama Campus)
