

Imperial-Tokyo Tech Global Fellows Programme 2025 in Tokyo

- Sustainability Innovation for Food Consumption and Production -

Call for Participation

In cooperation with Imperial College London (“Imperial”), Institute of Science Tokyo (“Science Tokyo”) invites student applications for **Imperial-Science Tokyo Global Fellows Programme 2025***, a weeklong, training camp-style exchange programme bringing together Imperial and Science Tokyo doctoral students in various fields under the theme of **Sustainability Innovation for Food Consumption and Production**.

The programme theme will align with the [UN Sustainable Development Goal 12](#), which emphasizes the importance of sustainable consumption and production. Hosted by Science Tokyo, participants will gather in Tokyo to develop the professional, research and collaborative skills necessary to find workable solutions to the problems of SDG 12 and its impacts. Through team discussions and interaction with researchers from different disciplines, development of collaborative research, participation in site visits, and poster presentations, Global Fellows will enhance their leadership and communication skills, further develop their interdisciplinary and intercultural awareness, and build professional networks.

Science Tokyo doctoral students from across the Institute are invited to submit an application.

* The Global Fellows Programme is a doctoral student exchange programme. It is based on Imperial College London’s Global Fellows Programme of and is organized under Science Tokyo’s Institute for Liberal Arts’ courses for doctoral students.
