

Imperial-Tokyo Tech Global Fellows Programme 2023

-Sustainable Water & Energy-

Call for Participation

The **Imperial-Tokyo Tech Global Fellows Programme 2023*** will bring together doctoral students from Tokyo Tech and Imperial College London and offer an opportunity to engage in interdisciplinary collaborative work to find solutions to a global issue.

Under the academic theme 'Sustainable Water & Energy' about 30 participants (15 from each institution) will work together for six days, designing solutions to achieve one of the United Nation's 17 Sustainable Development Goals, 'Clean Water and Sanitation' 'Life Below Water'.

Through group discussions, poster presentations, a field trip, etc., participants will develop leadership skills, interdisciplinary and intercultural awareness, and communication skills, and build networks essential for collaboration.

The Programme concludes with a poster fair on the last day. The team presenting the best solution for sustainable water & energy will be commended by members of the board.

To participate in the Programme, please read the following and submit an application.

* The Global Fellows Programme is a doctoral student exchange program. It is based on the Global Fellows Program of Imperial College London, a Tokyo Tech partner university, and organized under liberal arts courses for doctoral students provided by Tokyo Tech's Institute for Liberal Arts.
