Innovator and Inventor Development Platform (IIDP) Career Development Courses for Master's Program: General Information in April of Academic Year 2023

Course Offering

Career development courses include those offered by the Innovator and Inventor Development Platform (IIDP) and those each department (graduate major) offers for acquisition of GA, as listed in the "Guide to Graduate Majors" of the graduate major to which students belong.

Number of credits

Each career course has a "number of credits" that can be earned by taking courses (mostly one unit). To complete the master's program, you must earn at least two credits from the career course.

Confirm your department's Master's Program completion conditions by yourself. Make sure to follow the rules (study guidance) of the course you belong to.

Definitions or Goals of Graduate Attributes (GAs) for Master's Students

Graduate Attributes (GAs)

The GAs are set for each career subject (many subjects are set by either **GA0M** or **GA1M**). Both GAs need to be met. Schedule your courses for acquiring **2 credits** that meet **2 GAs** within 2 years until the completion of the master's program. Design your courses so that they are taken in stages, such as taking courses that include GA0M first and then taking courses that include GA1M in another semester.

GA0M

You can clearly plan your own career and recognize the abilities necessary for realizing it while considering ethics and relevance to societal problems.

GA1M

You can acquire the knowledge, skills, and ethics necessary for realizing your planned career and contribute to societal problem-solving while collaborating with other experts.

How to Study and Register for Career Development Courses

- i) Confirm your department's study guide.
 - ii) Register by yourself through “Web system for Students and Faculty” in the Tokyo Tech Portal.
 - iii) Confirm the credits and GAs you have already earned through “Web system for Students and Faculty.”
- Each department (graduate major) may offer its own original career development courses for the students belonging to that department. You can take career development courses intended for fulfilling your department's completion requirements offered by either your department or IIDP.

You should confirm your completion status of the requirements for the career development courses through “Web system for Students & Faculty” in Tokyo Tech Portal.

修得済 GA

COM, C1M

修了には、入学年度の学修案内に記載されているすべてのGAの修得が必要です。

The third white box from the top will show the number of the credit(s) you will earn. The number of the left box shows “2” that means the number of credits required for completion of career development courses. Since the white box does NOT include the credit(s) of the courses offered by your department, you should count it by yourself.

This left box will show all the GAs you will acquire. Both GA0M and GA1M should be shown when you complete your program with your master’s degree. Note that this box also show the GA(s) assigned in the courses offered by your department, different from the credit(s).
