

Neurology

Wednesday, 24th February 2021
9:00 - 11:10 (CET) / 17:00 - 19:10 (JST)

In March 2019, the strategic partnership between the Tokyo Institute of Technology and RWTH Aachen University has been consolidated by the opening of the Tokyo Tech Annex at RWTH. A first joint workshop to intensify the research cooperations between both partners took place in May 2019 focusing on "Sustainable Energy". We now cordially invite you to take part in a mini-workshop on "Medical Technology and Digital Life Science".

Ute Habel, Vice-Rector for International Affairs, RWTH Aachen University

Jun-ichi Takada, Vice President for International Affairs, Tokyo Institute of Technology

PROGRAM

	Chair: Ute Habel, Eizo Miyashita
9:00 - 9:20	(Video) Tatsuya Mizukoshi , Tokyo Tech ANNEX Aachen <i>Funding Opportunities in Japan</i> Ute Habel , Department of Psychiatry, Psychotherapy and Psychosomatics <i>Funding Opportunities in Germany</i>
9:20 - 9:40	Yoshihiro Miyake , School of Computing <i>Walk Mate Robot, The co-creation process between human and machine</i>
9:40 - 10:00	Kathrin Reetz , Clinical Research and Imaging in Neurodegenerative Diseases <i>Translational Neurodegeneration - the potential of imaging</i>
10:00 - 10:20	Hiroyuki Akama , School of Life Science and Technology <i>Possibility of resting-state and task-induced functional connectivity MRI</i>
10:20 - 10:40	Sonja Grün , Michael Denker , Institute of Neuroscience and Medicine (INM-6), FZJ <i>Dynamics of Cortical Interactions</i>
10:40 - 11:10	Discussion for collaboration

We hope that this online workshop will further strengthen the research cooperation between RWTH, FZJ and Tokyo Tech and continue the fruitful exchange.
